VOL. XXVI NO. 11.

PADUCAH, KY., TUESDAY EVENING, JULY 13, 1909

TEN CENTS PER WEEK

ALIENISTS PRINCIPAL WITNESSES

THAW, GINGLES AND SNELL
CASES DEPEND ON
SPECIALISTS.

HARRY CONFIDENT HE WILL
BE FOUND SANE BY
COURT.

White Plains, July 13.—A big crowd appeared at the court room today to hear the Thaw sanity case. Thaw is looking well and declared to a reporter he expected soon to be freed. The defense has 40 witnesses yet to be called. The state will depend largely on three alienists to prove Thaw insane. These men probably will examine Thaw in open court. If this is done Thaw will name three alienists to represent him at the hearing.

Gingles Case.
Chicago, July 13.—D. Krohn, specialist, was put on the stand in the Gingles case today. He is expected to prove she is suffering from hallucinations. The Rev. Keene Ryan, a Presbyterian minister, may be called to testify of court for statements he made Sunday when he denounced the prosecuting attorney for prosecuting the case.

Snell Will Case.
Clinton, Ill., July 13.—Witnesses in the Snell will case today were introduced by the son, who is contesting, to show his father's treatment of him proved him to be unsound of mind. Witnesses said the father would alternately curse the son and then make complimentary remarks. Alienists probably will be introduced.

Young Corbett to Marry.
San Rafael, Cal., July 13.—William Rothwell, better known as Young Corbett, secured a license to marry Daisy Merseman, who is said to be the daughter of a Virginia politician.

Miners Strike Not Sympathetic.
Bridgeport, O., July 13.—T. L. Lewis, president of the Mine Workers' Union, who left today for Pittsburgh, Kan., denied emphatically that the proposed strike of 15,000 district miners this week was in sympathy with the mill workers' strike. He said the miners' action did not have the sanction of the national organization and would not get it.

Banner Crop Ruined.
Concordia, Kan., July 13.—The prospect of a banner crop in the western part of Cloud county was ruined Sunday morning when a wind and hail storm destroyed everything in its path, eight miles wide and twenty-five miles long, covering territory around Glasco, Beloit, Jewett, Scottville, Simpson and Randall. The damage to crops is over \$1,000,000, and the disheartened farmers have begun to plow their fields and prepare for wheat next year.

HARRAHAN IN C. OF G.
Elected Director of New Illinois Central Possession.
Savannah, Ga., July 13.—J. T. Harahan, president of the Illinois Central railway, and George A. Peabody, of New York, president of the Mutual Life company, were elected directors of the Central of Georgia railway and were placed on the executive committee today. William Nelson Cromwell and J. W. Cullie, of New York, resigned. The new members are said to be the representatives on the board of E. H. Harriman.

CITY COUNCIL ON STRIKE.
Resenting Mayor's Dismissal of City Engineer—Prevent Quorum.

Port Scott, Kan., July 13.—The city council here is on strike, probably the most unique situation in politics in Kansas. Four members are refusing to attend meetings, which prevents Mayor Brooks from having a quorum.

The trouble came about when the mayor relieved City Engineer Strode from office and appointed Will McElroy in his place. The council demanded an explanation for the removal of Strode, and Strode told the members that the mayor had requested his resignation. The council at once voted down a resolution to receive the resignation, and when the mayor presented the name of McElroy for engineer, this was rejected. Twice since efforts to hold a meeting have failed.

The members say that they are opposed to the mayor's being a czar, and that they are getting even for his discharging their man for engineering.

Another Amendment, Providing for Popular Election of Senators, is Urged for Submission by Mr. Bryan

NO. 1'S DOG DEAD.

Gloom reigns at the No. 4 fire station, Tenth and Jones streets, because of the death of "Hildie," the faithful watchdog, pet and pride of the firemen. The dog died yesterday afternoon about 4 o'clock after being in a weakened condition for several months owing to a tumor. Her condition became such that an operation was the only hope of saving her life, and yesterday afternoon it was performed by Dr. C. G. Warner. "Hildie" was given to Chief Wood thirteen years ago by some rivermen, and she was carried to the fire station. She was only a few days old, and Captain Jake Elliott took a fancy to the dog and raised her. Since then the fire captain and the dog have been inseparable companions, and she has followed the fire fighter to every fire station where he has worked. Being around the fire station for thirteen years, "Hildie" was taught many tricks. She could sit up with as much ease and grace as a well social function. Besides the common tricks the dog acquired one habit out of the ordinary and that was tobacco chewing. She was a fiend for the weed, and when a fireman cut a piece of tobacco from his pipe there was some loud barking until the dog was remembered. As a messenger "Hildie" was efficient, and the firemen frequently sent notes and messages to the stations and to their homes by their four footed friend. This morning a nice box was made for the body of the dog, and it was buried in the rear yard of the fire station. Every fireman made a few remarks as the box was lowered into the ground.

ROOSEVELTS ARRIVE AT GENOA.

Family Party Have Stormy Trip on Boat From Port at Naples.

Genoa, July 13.—After a stormy passage, the steamer Celtic, with Mrs. Roosevelt and her three children aboard, arrived here from Naples. The party remained aboard the steamer.

May Not Seek Re-Election.

Honolulu, July 13.—Prince Kahanalamohe, the Hawaiian delegate to congress, in a statement yesterday said he probably would not seek re-election. Among the aspirants for the Republican nomination for delegate to congress are mentioned former Gov. George R. Carter, Senator Samuel F. Chillingworth, former Territorial Secretary A. L. C. Atkinson, A. G. M. Robertson is mentioned for national committeeman.

Become Tax Up to States.

Washington, July 13.—It is now up to the legislatures of the several states to say whether there shall be an income tax amendment to the constitution. By the decisive vote of 317 to 14, more than two-thirds, the house passed the senate joint resolution providing for the submission of the question to the states. Negative votes were all cast by Republicans.

Cap. Ed Farley, who has been visiting his family here for several days, has returned to Frankfort.

Big Jeff Says He Will Knockout Jack Johnson

Toronto, Ont., July 13.—Jeffries today denied the interview saying he would not fight Johnson. "I never faked the public in my life," he said. "I gave my promise to fight Johnson and I am going to fight him. I am going to whip him and then give the

championship to some white man, who will promise never to enter the ring with a negro."

Church Innovation.

Cincinnati, O., July 13.—Thirty-five canary birds as a part of the choir and participating in the Sabbath morning unusual program, constituted an innovation in the regular religious services at Lincoln park institutional Baptist church.

Beveridge Toasted

Indianapolis, July 13.—Politicians today are analyzing Senator Beveridge's speech here, finding it is a prophesy of future defeat of the Republican if the present tariff continued. The reception to the senator was in recognition of his fight against Aldrich on the tariff bill.

HARRY KELLY WILL RETURN TO BALLARD FOR HIS TRIAL

Frankfort, July 13.—Gov. Cox made requisition on the governor of Missouri for the return of Harry Kelly, wanted in Ballard county on a charge of housebreaking. Kelly is being held in St. Louis.

Tells Taft in Open Letter He Will Support Administration in Effort to Secure State Adoption.

Lincoln, Neb., July 13.—If Taft will submit to congress an amendment, providing for the election of senators by direct vote so the states may vote on it when voting on the income tax amendment, Bryan in an open letter today, promises to help pass it to make the Taft administration notable.

Bryan's letter in part follows: "Now that the states are going to vote on the ratification of the amendment, authorizing an income tax, why not give them a chance to vote on an amendment, providing for the election of senators by popular vote? In your speech of acceptance you said you favored such a change. These amendments would make the administration memorable. I pledge whatever assistance I can render to securing the ratification."

Conference Committee.

Washington, July 13.—A member of the conference committee handling the tariff today declared the committee soon will make better headway. It is believed when the report of changes looked out the representatives began to hear from other representatives.

Corporate Tax One Per Cent.

Washington, July 13.—At a conference at the white house it was definitely decided that the rate to be levied under the new corporation tax shall be reduced from 2 per cent to 1 per cent and that in redrafting the measure now in conference along with the tariff bill, to meet various objections that have been raised, due consideration shall be given to the demands of the mutual life insurance companies, most incomes would be seriously affected by the tax in its original form.

Nagel Stirs 'Em Up.

Washington, July 13.—The great "shakeup" that ever has occurred in the personnel of the department of commerce and labor took place when about an hundred employees were reduced and resignations of about ten others accepted.

This action was taken by Secretary Nagel as the result of an investigation into the "efficiency record" of the employees in his department. The reduced ones were made, it is stated, because the employees were found to have "loafed on the job," while those allowed to resign were found to be inefficient.

The secretary's declaration is to inject new life into the work of his department.

Further changes are to be made, it was intimated today, as soon as Secretary Nagel completes his examination of the efficiency report. Many of the clerks will receive promotions.

Cap. Ed Farley, who has been visiting his family here for several days, has returned to Frankfort.

Louisville's New Filter.

Louisville, July 13. (Special.)—Louisville's famous filter, in construction since 1898, was placed in operation today.

Mrs. Roosevelt Drives.

Genoa, July 13.—Mrs. Theodore Roosevelt and her three children, who arrived here yesterday from Naples, were met here by Miss Carow, Mrs. Roosevelt's sister. The party spent the morning driving around Genoa and left in the afternoon for Miss Carow's villa at Porto Maurizio.

Trouble With Japs

Honolulu, July 13.—Further trouble is feared today, following the arrest of 18 Japanese 20 miles from here on the charge of inciting a riot. Sheriff Jarrett, who went to Waimanalo plantation to make the arrests, was nearly mobbed by angry Japs. Rioting resulted from the strike on a plantation which began yesterday.

Tragedy of Two Lives

Chicago, July 13.—With a postcard in his pocket supposedly from his wife, saying she was about to suicide, Clarence Ruggles, of Denver, was found this morning suffering from strichnine. He is dying. Two weeks ago he took an examination to become a teacher in the public school and failed to pass.

Overcome With Heat

Little Cypress, Ky., July 13. (Special.)—While working in a hay field yesterday afternoon, Doyle Story, a young farm hand, was overcome with the heat. He felt the attack overcoming him and he was assisted to the shade by fellow workmen. Dr. E. R. Goodloe was called and found him sick, but not in a serious condition. He was resting easy today.

Persian Rebels Capture Teheran.

March Through Streets
Toward Palace of Shah
Leaving Them Strewn
With Bodies of Dead
and Wounded.

Teheran, July 13.—Rebels entered the city this morning, forcing their way towards the shah's palace, leaving the streets strewn with dead and wounded. Rebels entered from the north and west, gradually crowding back the small force of Persian conscripts who remain loyal to the shah. The shah is closely guarded in his palace, around which the greater part of the defending force collected. Rebels are cutting down all resistance and it now seems certain the rebels will force their way to the palace.

Preparations are made for the shah to take refuge in the Russian legation. Desultory street fighting out the barricades and butchery by looting parties which swarm through the city, have filled the gutters with dead, which the rebels have made no attempt to remove. The wounded, if unable to drag themselves to shelter, lie with the corpses.

North Carolina in Peril.
Naples, Italy, July 13.—It was learned today that the accident to the cruiser North Carolina was more serious than reported. If the other vessels in the harbor hadn't come to her assistance, fire following the explosion probably would have reached her magazine. One man was killed and one severely injured.

Troops Sent.

Halifax, N. S., July 13.—Troops were sent from here yesterday to quell rioting at the Inverness coal mines in Sydney.

Monoplane Breaks.

Calais, France, July 13.—Henri Latham in a trial flight of his monoplane today broke the propeller blade and the wheel with which the machine alights. It will be several days before the repairs are made and he makes a trial flight across the English channel.

Superstition and Cholera.

St. Petersburg, July 13.—Troops have been hastily dispatched to the Lipko and Schusselburg districts, where rioting follows the enforcement of the anti-cholera precaution. Ignorant natives seem to believe the fumigation of their homes prove fatal. Physicians enforcing this precaution were mobbed.

A Rothschild Dies.

London, July 13.—News dispatches today from Vienna report the sudden death of Baron Oscar von Rothschild, 21 years old, youngest son of Baron Albert, head of the Viennese branch of the big banking firm. Mystery surrounds his death.

Louisville's New Filter.

Louisville, July 13. (Special.)—Louisville's famous filter, in construction since 1898, was placed in operation today.

Mrs. Roosevelt Drives.

Genoa, July 13.—Mrs. Theodore Roosevelt and her three children, who arrived here yesterday from Naples, were met here by Miss Carow, Mrs. Roosevelt's sister. The party spent the morning driving around Genoa and left in the afternoon for Miss Carow's villa at Porto Maurizio.

Trouble With Japs

Honolulu, July 13.—Further trouble is feared today, following the arrest of 18 Japanese 20 miles from here on the charge of inciting a riot. Sheriff Jarrett, who went to Waimanalo plantation to make the arrests, was nearly mobbed by angry Japs. Rioting resulted from the strike on a plantation which began yesterday.

Tragedy of Two Lives

Chicago, July 13.—With a postcard in his pocket supposedly from his wife, saying she was about to suicide, Clarence Ruggles, of Denver, was found this morning suffering from strichnine. He is dying. Two weeks ago he took an examination to become a teacher in the public school and failed to pass.

Overcome With Heat

Little Cypress, Ky., July 13. (Special.)—While working in a hay field yesterday afternoon, Doyle Story, a young farm hand, was overcome with the heat. He felt the attack overcoming him and he was assisted to the shade by fellow workmen. Dr. E. R. Goodloe was called and found him sick, but not in a serious condition. He was resting easy today.

Famous Bigamist Tells of His Many Marriages

San Jose, Cal., July 13.—Explaining brokenly he will not be able to live out his seven year term for bigamy, Christian Johnson in the presence of Sheriff Langford made a complete confession of his relations with women, freely admitting he is Madison. "I have been making a living by making love and marrying for money," he said. "I don't think I could give all the names of the women I married off hand. In 1906 my health failed and I conceived the idea of going about the country becoming engaged to women and getting what money I could. I always have been popular with women. I did not wish

to marry them, but it was impossible in many cases to get their money without marrying. I first married Mary Brown, of Springfield, Mass. I next married in San Francisco."

Madson says he was engaged to or married to a woman in nearly every big city in the United States.

Troops Murder Tramp.

Laporte, Ind., July 13.—Chas. F. Silverdale, a Lake Shore employee, was attacked by five tramps this morning and knifed to death after a fierce struggle. His body was thrown from the train east of here. A posse is hunting the tramps. One is reported caught.

PASTOR CALLED BY KENTUCKY AVE. CHURCH

The Rev. E. B. Landis, of Neoga, Ill., has accepted the pastorate of the Kentucky Avenue Presbyterian church. He will not arrive in Paducah until September 1 to take charge of the church, and during the summer the pulpit will be filled by Mr. Pearson Lockwood and visiting pastors. When the Rev. Landis preached on trial about a month ago he created such a favorable impression that the members extended the call to him. He is possessed with a good clear voice. Tennessee is his native state, but for several years he has been in the northern states.

Ensign Dies at Sea.

Washington, July 13.—Ensign Hugh K. Alken of the navy died aboard the armored cruiser North Carolina at Naples last night from injuries resulting from a coal gas explosion, attributed to the generation of gas in the bunkers. He was born in New Orleans in 1884 and entered the naval service in 1902.

Episcopians in Conference.

Cambridge, Mass., July 13.—The sixth year's annual summer conference of the Episcopal church was opened here and will continue until July 25. The conference is in charge of the Seabury society of New York, named for the first American bishop of the denomination. The topics to be discussed deal mainly with missionary enterprise.

President Commutes Sentence.

Washington, July 13.—The president has commuted to four years the sentence of Edward E. Fleckinger, of Gallon, O., a manufacturer who was sentenced to seven and a half years for aiding and abetting Ohio L. Hays, president of the Gallon National bank, in unlawfully misappropriating funds. The commutation is based on ill health.

From the Black Patch.

Pensacola, Fla., July 13.—Four solid train loads of 115 cars of tobacco reached here yesterday over the Louisville & Nashville railroad from the tobacco fields of Tennessee and Kentucky for export to Liverpool. The cars contain an average of 15 hogheads of tobacco, each weighing 1,000 pounds or a total of approximately 1,725,000 pounds and will form an almost complete cargo.

Got Ready for Reunion.

Brownsville, Tenn., July 13.—Arrangements for the annual reunion of Confederate soldiers, to be held here July 29, are rapidly being made. Rev. W. T. Bolling, of Paris, and Hon. C. B. Simonton, of Covington, will deliver addresses and a splendid musical program is being arranged. The reunion attracts visitors from all parts of the state and several thousand people are expected to be present.

WRIGHT MAKES GOOD FLIGHT.

Makes Six Circles of Ft. Myer Drill Grounds.

Washington, July 13.—Orville Wright last night made a very successful flight in the Wright aeroplane at Fort Myer, Va., remaining in the air five minutes and thirty seconds, during which time the machine attained the exceptional speed of about forty miles an hour and circled the parade grounds half a dozen times, a total distance of about three and a half miles.

Sage Rhododendrons Stolen.

New York, July 13.—Rhododendron plants valued originally at \$50,000, presented to the city by Mrs. Russell Sage and set out in Central park, have been stolen from their beds. James McKeagney, a patrolman, and John M. James, a chauffeur, were arrested charged with having taken them. The rhododendrons were of a rare Belgian variety and covered a strip a mile long.

MUCH TYPHOID FEVER FOUND OUTSIDE CITY

HEALTH OFFICER SIGHTS
WARNS PEOPLE OF DAN-
GER IN AUGUST.

WHEN THE GERM LADENED
FLIES ARE DRIVEN IN
DOORS.

Dr. H. P. Sights, city health officer, has just returned from visiting surrounding towns and he makes a startling report concerning typhoid fever. In an interview with a reporter for The Sun today he said:

"Paducah at present is one of the most healthful cities in Kentucky, while surrounding towns are in danger of a typhoid epidemic. In Paris, Tenn., there are 20 cases; at Hopkinsville about 10; and at Princeton only a case is reported. The people here don't seem to realize the danger of typhoid, and if the germ once mingles there is no way to keep it from spreading."

"In homes where there are sanitary sewer connections and fly screens, there is little danger of catching typhoid germs. It has been proved by scientists that the fly is infected and carries the germ instead of water only, as was heretofore considered. I have bought 350 pounds of fly powder to be distributed over the unsanitary parts of the city, and have also instructed several residents to have weeds cut on their premises."

"August is the month which we have to look out for, and if the sanitary conditions are not good there probably will be many cases reported."

The American Journal of Public Hygiene says: "One of the most notable features of our Winnipeg typhoid has been its constant relation to season. Prevalence was always slight in all months up to July. When August came the number of cases always increased with a bound. Particularly striking was the fact that as soon as the evenings began to grow cool and the flies were driven indoors, the typhoid rate rose; but when the first hard frost set in a diminution at once took place."

"It was a frequent occurrence to visit houses and find two or three typhoid patients being cared for in one room, where the cooking was done and the food kept, the individual who was doing the cooking usually acting in a nursing capacity as well. Food, flies and fingers were always active."

"Sometimes the infection is carried by individuals who work in one place and live in another, and often by the agency of milk and other foods. Again, individual cases occur in the best portion of the city, in which we were quite unable to ascertain the cause. Careful supervision is exercised over the water supply and a large number of public and private wells have been closed. Low lots were drained or filled in, rubbish heaps were burned or destroyed, lanes paved or graded, many unsanitary premises were closed altogether, and work along these lines is still going on."

Serving Notices.

Police are busy today serving a wholesale supply of summons on property owners in the sewer district, and who have failed to connect their property with the system. Dr. H. P. Sights, city health officer, swore out the warrants and will prosecute the warrants in the police court. They will be on the docket for trial tomorrow morning.

Work Begun.

St. Johns, N. F., July 13.—The work of laying a cable connecting New York direct with St. Johns will be begun this week by the steamer Colonia of the Commercial Cable company, which arrived here yesterday.

M. & O. Freight Train Wrecked.

Humboldt, Tenn., July 13.—A southbound special freight train on the Mobile and Ohio railroad was derailed last night five miles south of Humboldt, and eleven cars were derailed and the track badly torn up for a considerable distance. All passenger trains last night were forced to go over the Louisville and Nashville to Milan and over the Illinois Central to Jackson in order to pass the wreckage.

Sage Rhododendrons Stolen.

New York, July 13.—Rhododendron plants valued originally at \$50,000, presented to the city by Mrs. Russell Sage and set out in Central park, have been stolen from their beds. James McKeagney, a patrolman, and John M. James, a chauffeur, were arrested charged with having taken them. The rhododendrons were of a rare Belgian variety and covered a strip a mile long.

FAIR.

Generally fair tonight and Wednesday; moderate temperature. Highest temperature yesterday, 86; lowest yesterday, 75.

DON'T THROW MONEY AWAY

on cheap courses that are put up in books and budgets for you to read and copy, and which are neither recognized nor adopted by reputable business colleges. If you want a Complete Commercial Course or a Thorough Stenographic Course at a MINIMUM OF COST, go to

PADUCAH CENTRAL BUSINESS COLLEGE

STATUE OF THE LATE SENATOR ED CARMACK.

Columbia, Tenn., July 13.—Frank C. Boardman, of Columbia, former instructor of sculpture at Yale university, has been awarded the contract for the statue of Senator Carmack at Columbia at a maximum price of \$5,800. Five models were displayed, that of Mr. Boardman, one by Miss Belle Kinney, of Nashville, one by Zolnay, one by Pompey Coppino, who has just completed an equestrian statue to General Morgan at Lexington, and one by Ashbjornsen, of Chicago. Under the rules laid down by the executive committee several months ago when the competition was opened, the model of first excellence was to receive the con-

tract, the next \$150, the third \$100, and the fourth \$50. Under this plan Miss Belle Kinney came second and was given a check for \$150. Mr. Ashbjornsen received \$100 and Mr. Coppino received \$50.

"Do you take this woman for better or worse?"
"I do, Judge, I do. But I hope we kin kinder strike an average."—Washington Herald.

BASEBALL NEWS

Nationals Win.
In a fast and well played game the Paducah Nationals defeated the Nashville Union Giants yesterday afternoon by a score of 4 to 0. The game was replete with sensational plays, the triple play unassisted by Pearl Hoad being one of the cleverest stunts ever pulled off on a local diamond. The batteries were: For Paducah, Butt and Seals; for Nashville, Church and Jenkins.

NATIONAL LEAGUE.

Club:	Won.	Lost.	Pct.
Pittsburgh	53	20	.726
Chicago	43	26	.623
New York	41	28	.594
Cincinnati	39	34	.534
Philadelphia	31	38	.449
St. Louis	27	40	.403
Brooklyn	26	46	.361
Boston	21	49	.300

Five for the Reds.

Brooklyn, July 13.—Brooklyn and Cincinnati divided a double-header, the visitors thus getting five out of the six games in the series. Cincinnati took the first game by slugging the ball. Egan, Mitchell and Lobert each made a home run. With victory safe, Manager Griffith made several changes.

In the second game the crowd was incensed at some of Klein's decisions, but appearance of bluecats prevented trouble.

Score: R H E
Cincinnati 11 13 1
Brooklyn 1 9 2
Batteries—Rowan and Doherty; McIntyre, Pastorius and Bergen.

Second Game.

Score: R H E
Cincinnati 4 7 1
Brooklyn 5 7 1
Batteries—Ewing, Dubuc and McLean; Helt and Marshall.

Cubs Win in First.

Philadelphia, July 13.—Chicago won through the superb pitching of Overall. The Chicagoans scored all runs in the first inning, after two men were out, through Schulte's hit, his steal, Knabe's fumble of Chance's grounder, Steinfeldt's triple and Hornsby's single. Dooly was sent to the club house in the first inning for disputing Umpire Johnstone's judgment on called balls.

Score: R H E
Philadelphia 0 3 1
Chicago 3 5 1
Batteries—Covaletsky, Corridon, McQuillen and Doolin and Martell; Overall and Archer.

Camnitz in Great Form.

New York, July 13.—New York and Pittsburgh split a double-header, the home team being successful in the first and being defeated in the second. In the second game Camnitz came near blanking the New Yorks in hits as well as runs. One safety made off him was a scratch hit by Marquard. The visitors had no trouble hitting Marquard, whose wildness was costly. The paid attendance at the six games of the series was over 50,000.

Score: R H E
Pittsburgh 2 4 3
New York 3 9 0
Batteries—Willis and Gibson; Marquard and Schell.

Second Game.

Score: R H E
Pittsburgh 9 11 1
New York 0 1 3
Batteries—Camnitz and Gibson; Marquard and Schell and Wilson.

Byrne's Muff Was Fatal.

Boston, July 13.—The deciding run came in the ninth inning, when Byrne dropped the ball after making an ineffectual attempt to catch Thomas running to third. Two hits followed, giving Boston the game.

Score: R H E
Boston 4 7 0
St. Louis 3 14 3
Batteries—Ferguson and Howeman; Sallee and Phelps.

St. Louis	30	44	.406
Washington	22	49	.319

Boston in the Tenth.

Chicago, July 13.—Three hits, a base on balls and an error gave the visitors three runs in the fourth off White. They won in the tenth after two were out on two hits, following the hitting of a batter.

Score: R H E
Boston 4 11 1
Chicago 3 11 1
Batteries—Ryan, Hurrell and Donohue; White, Smith and Sullivan.

Browns Are Whitewashed.

St. Louis, July 13.—Lake held the locals to three hits, two going to Hoffman. Powell opposed him and went well until the eighth, when the visitors scored three runs, Engle's double driving in two.

Score: R H E
New York 5 7 1
St. Louis 0 3 5
Batteries—Lake and Kleinow; Powell, Criss and Stephens.

Dark Clouds End It.

Cleveland, July 13.—Cleveland made it three out of four from Washington. When Cleveland was at bat in the fifth inning the umpire had to call the game on account of darkness.

IF YOU NEED A MEDICINE, YOU SHOULD HAVE THE BEST

Although there are hundreds of preparations advertised, there is only one that really stands out pre-eminent as a remedy for diseases of the kidneys, liver and bladder.

Dr. Kilmer's Swamp-Root stands the highest, for the reason that its remarkable health restoring properties have been found to be just the remedy needed in thousands upon thousands of even the most distressing cases.

Swamp-Root makes friends quickly because its mild and immediate effect is soon realized. It is a gentle, healing vegetable compound—a physician's prescription for a specific disease.

Swamp-Root is not recommended for everything.

A Sworn Certificate of Purity is with every bottle.

For sale at all drug stores in bottles of two sizes—fifty cents and one dollar.

Sample Bottle Free by Mail.
In order to prove what Swamp-Root, the great kidney, liver and bladder remedy will do for you, every reader of the Paducah Daily Sun who has not already tried it, may receive sample bottle by mail absolutely free. Address Dr. Kilmer & Co., Binghamton, N. Y. Write today.

IMPORTS

VALUE OF THEM FOR MANUFACTURING PURPOSES

Falls Below Record of 1907 But Quantity Exceeds All Previous Years.

Washington, July 13.—Manufacturers' materials imported in the fiscal year just ended seem likely to exceed in quantity those of any earlier fiscal year. Measured by values alone the figures of the year will fall nearly 100 million dollars below those of 1907; but the quantity imported of nearly all important materials for manufacturing exceeds, in the fiscal year 1909, that of any earlier fiscal year.

While this statement regarding the quantity of materials imported in the fiscal year 1909 is based upon only 11 months completed figures, the record of the bureau of statistics of the department of commerce and labor, is now sufficiently complete to give assurance that of the principal materials imported for manufacturing nearly all will show larger quantities brought into the United States in the fiscal year 1909 than in any earlier year. The principal articles imported for use in manufacturing are silk, cotton, wool, vegetable fibers, tobacco, India rubber, hides and skins, copper, tin, and lumber. These ten articles represent more than one-half of the total value of manufacturers' materials imported, and the quantity brought in in the year just ended is in no preceding year, though in many instances in which the quantities have increased the values are less than those of two years ago, owing to the fact that prices per unit of quantity are in 1909 materially less than in 1907.

WICKLIFFE CLAY FACTORY.

Kentucky Development Company Will Utilize Local Deposits
Wickliffe, Ky., July 13.—Mr. E. C. Weston, who was in Chicago recently, has succeeded in forming a corporation to be known as the Kentucky Development company. Mr. Weston is general manager and Mr. H. B. Warden is secretary. The company expects to erect a factory for the manufacture of all kinds of fire proofing, chinaware, etc., in fact everything that is manufactured from clay. The company will also ship the raw material. Work is to be commenced on the property in the near future. A gravel road is to be built on the property at once, and the top soil stripped from the clay on about five acres. The commercial possibilities of Hallard county clay are well known, as there was at one time a small factory located here for the manufacture of jugs, urns, flower pots, etc., which for a time proved a profitable business until the improved machinery of rival concerns were able to flood the market with a much cheaper and inferior product.

The Evening Sun—10c a Week.

RIVER NEWS

River Stages.			
Pittsburgh	6.0	0.0	fall
Cincinnati	14.3	1.3	rise
Louisville	8.8	0.4	rise
Evansville	19.4	1.0	rise
Mt. Vernon	18.9	0.9	rise
Mt. Carmel	10.2	0.9	rise
Nashville—Missing.			
Chattanooga—Missing.			
Florence	11.5	0.2	fall
Johnsonville	14.3	2.3	rise
Calto	33.9	0.0	rise
St. Louis	33.2	1.5	rise
Paducah	21.5	0.0	rise

The river stage at 7 o'clock this morning reported 24.7, with a rise of 1.8 since yesterday morning.

The John S. Hopkins was today's packet from Evansville, arriving this morning at 10 o'clock and leaving as soon as she was loaded.

The Dick Fowler left this morning at 8 o'clock for Cairo with a large passenger flat.

The Cowling made her two usual trips to Metropolis today at 11 o'clock a. m. and 4:30 p. m.

The Itoyal arrived this morning from Goleonda and left on her return trip at 2 o'clock.

The City of Saltville will arrive today at 10 o'clock from the Tennessee river en route to St. Louis.

The towboat Russell Ford is above Cairo on her way to St. Louis with two barges of railroad ties.

A model barge with 100 earloads of pipe was included in the tow of the Raymond Horner, which left Pittsburgh June 12. She arrived at New Orleans June 17, 17 days later. This time is much better than could be made by rail and very much cheaper. It is said that the United States corporation will investigate the alleged superior advantages of river transportation for iron and steel products. In river transportation the hard knocks to which the pipe is subjected by rail transportation is done away with in the early stages of the trip.

The St. Louis Globe-Democrat says that Capt. Burton had almost decided to enter his steamer, City of Memphis in the Missouri river trade. A fleet of six steamboats will leave St. Louis within the next few days for Memphis, Okla., where they are to be used in getting out sand and gravel and in delivering material of all kinds in that vicinity. The boats are owned by the Oklahoma Sand, Gravel and Material company, which was incorporated in St. Louis yesterday with a capital of \$200,000, and with the following incorporators: F. A. Townsend, H. G. Offenhauer, Thomas Ledger, P. T. White, Thomas W. Knab, F. E. Miller and E. J. Morrison, all of St. Louis, and P. Adams of Muskogee, Okla., and other building materials and its plant will be located at Muskogee. The boats will travel down the Mississippi river to the Arkansas river and will go up the latter stream to Muskogee, which is about 100 miles west of Fort Smith. The trip will be made at the time to take advantage of the high water.

The Clyde will leave tomorrow evening at 6 o'clock for the Tennessee river. She took on 650 barrels of salt here and will leave with a large cargo.

Damage Done by Rats.

The rat is believed to be the worst mammalian pest known to man. Not only does it destroy property worth millions of dollars every year, but it is now known to be the principal agent in disseminating bacterial plague in the ordinary sense. The infection is spread from rat to rat and from rat to man solely by means of the rat flea.

The damage done by rats is not to be measured by what they eat. Through pollution of food products they do as much damage as by eating them. Besides they do great damage by digging under buildings and embankments, by gnawing woodwork, by cutting holes in sacks, and by cutting up goods and papers to make nests. They kill young poultry and swine. They steal eggs. They frequently destroy the nests of wild birds. They have been known to gnaw holes in lead pipes, and they cause fires by gnawing the insulating covering from electric wires, where they pass under the floors or inside partitions. They also cause fires by gnawing and gnawing matches.

The rapidity with which rats multiply is the main reason why man appears to make so little headway in their destruction. It has been calculated that a single pair of rats and their progeny breeding without interruption and suffering no losses would in three years increase to more than 20,000,000—20 million.

The Guests of Sleep.
And old men drink of it, with
And old men drink of it, with
And old men drink of it, with
The passing wisp of night.

And poets drink of it,
But best and ch' is sweet
Above that him whose poppy wisp
The tip of lovers' sweet
Theodora Garrison

Intuition "The world has long known, John," pointed Mrs. Jipson, "ing feels into a cheer."

"Well, we have to advertise for another one, that's all," moodily answered Mr. Jipson. For he knew without being told that the next left for Chicago. "I love my work." "Now be honest. Do you really love work?" "Well, it's an extremely pleasant affection."—Washington Herald.

The resistance to traction in dry weather is smallest on brick pavements and in wet weather on bituminous pavements.

HANDLING THE WHEAT

that goes into MOMAJA FLOUR is a matter of the greatest care. ONLY the finest soft, red winter wheat is used. Tasted on your grocer sending you a sack of MOMAJA the next time you order groceries. We ask you to do this the first time, afterwards you will do so of your own accord.

OPEN SATURDAY NIGHTS FROM 7 TO 8 O'CLOCK.

A CLEANLY AGE.

Twentieth Century Ideas Incline Toward Sanitation and Preventatives.

Nowadays scientists believe that in cleanliness lies the secret of prevention of diseases.

To prevent a disease, remove the cause.

Just as unclean habits breed many diseases, so careless habits will breed dandruff. Improper use of another's brushes, combs, etc., will surely cause dandruff, and, in time, will just as surely cause baldness.

It's a horrible infection, nothing more nor less.

Newborn's Herpidea kills the dandruff germ, and causes hair to grow luxuriantly. Herpidea is absolutely free from grease or other injurious substances.

Sold by leading druggists. Send 10c in stamps for samples to The Herpidea Co., Detroit, Mich. \$1.00 bottles guaranteed. R. W. Walker Co., Special Agents.

RAILROAD TONNAGE

WESTERN TRAFFIC OFFICIALS REPORT STEADY INCREASE.

Out look is inspiring, and Trans-continental Freight Business is Booming.

Chicago, July 13.—Western traffic officials report steady increase in traffic, with but one or two exceptions over recent weeks, but all say that gains are good over the same period a year ago. On the south-western lines there has been somewhat of a lull during the last fortnight but the transcontinental freight and passenger business continues heavy. Officials of these roads are looking for a steady increase in the movement of new wheat in Kansas and Oklahoma, and there is more oil corn being offered, as the elevator interests are shipping out their corn and preparing to handle wheat. The recent floods, however, may interrupt or delay this movement, as the railroads are finding some difficulty in keeping their lines open along the overflowing river territory.

The movement of merchandise continues to be the leading feature of railway traffic, although in other classifications there is now an improvement shown and traffic officials say that earnings are showing gratifying increases. In the northwest officials are somewhat enthused over the volume of business they are handling, and in that section earnings are also up to expectations. The present crop outlook is excellent, and preparations are now being made to handle the largest fall traffic ever experienced. Generally the railroads are prepared for a big movement of freight, and have put rolling stock and motive power into excellent condition.

Waymond Scott Will Make Good.

Mr. Waymond Scott, of St. Louis, who has been visiting his grandfather, Judge C. W. Tucker, at Metropolis, Ill., returned Monday to St. Louis. Mr. Scott is attending a gymnasium and boxing school. He is becoming quite an expert. It is predicted he will make his mark.

"De fact dat kleckin' don't accomplish much," said Uncle Eben, "is proved by de climate. Folks has been undin' fault wif it ever since I kin remember, an' its jes' as totheracious as ever."—Washington Star.

ORIGIN

Of a Famous Human Food.

The story of great discoveries or inventions is always of interest. An active brain worker, who found himself hampered by lack of bodily strength and vigor and could not carry out the plans and enterprises he knew how to conduct, was led to study various foods and their effects upon the human system. In other words before he could carry out his plans he had to find a food that would carry him along and renew his physical and mental strength.

He knew that a food which was a brain and nerve builder, (rather than a mere fat maker) was universally needed. He knew that most with the average man does not accomplish the desired results. He knew that the soft gray substance in brain and nerve centres is made from Albumen and Phosphate of Potash obtained from food. Then he started to solve the problem.

Careful and extensive experiments evolved Grape-Nuts, the now famous food. It contains the brain and nerve building food elements in condition for easy digestion.

The result of eating Grape-Nuts daily is easily seen in a marked sturdiness and activity of the brain and nervous system, making it a pleasure for one to carry on the daily duties without fatigue or exhaustion.

Grape-Nuts food is in no sense a stimulant but is simply food which renews and replaces the daily waste of brain and nerves.

Its flavor is charming and being fully and thoroughly cooked at the factory it is served instantly with cream.

The signature of the brain worker spoken of, C. W. Post, is to be seen on each genuine package of Grape-Nuts.

Look in pkgs. for the famous little book, "The Road to Wellville." "There's a Reason."

TIME PASSES BY
SWIFTLY IN THE
GREAT CONTEST

August 7th Will Soon Be Here
to Mark Close of
Race.

Winners Are Coming to the
Front Rapidly.

CANDIDATES WORKING TO WIN

VOTING LIMIT.

From this time, until further notice, no candidate will be permitted to cast more than enough certificates, or pink slip votes, to place him more than 5,000 ahead of the leader at the preceding publication of scores.

For instance, if the leader of the entire contest has 20,000 votes to his credit at the last publication of scores, a candidate will not be allowed to vote more than enough certificates to make his score 25,000.

In the next publication, if this restriction does not apply to the coupon votes clipped from The Sun or associate papers.

No candidate will be permitted to lead two days in success, or to win if any other candidate has enough votes to pass him.

The days are swiftly going by, and before we hardly realize it, August 7, the day when the great contest closes, will be here. To some of the candidates this day will mean ruin. Will you be among the winners? You can be if you will only make up your mind that you are going to win and bend your energies towards accomplishing that end. From this time on there must be hard and systematic work on the part of those who expect to win. This is what it takes, and all it takes.

A glance through today's list is enough to prove that there are already some wide-awake people in the race. If you have been watching the scores each day, you will see that some of the candidates are rapidly climbing up. The winners are beginning to come to the front.

The contest is getting warmer every day. Live candidates are making their work tell. From now on until the close each day demands effective work, and you must grasp every opportunity.

Please remember that the bonus this week is for new business only. See if you cannot make this week count for a great deal. Bear in mind when you ask your friends to subscribe for The Sun that you are not asking something for nothing. They get full value for their money, besides helping you to secure without a cent of investment a very beautiful prize.

Much can be accomplished in a day's time. Remember to make hay while the sun shines, and there is no time like the present for doing good work.

(Standing of contestants at noon, July 12.)

One of the main reasons why the per capita fire loss in Europe is only one-tenth of that in the United States lies in the fact that the fire insurance laws abroad are more stringent, and that in all the larger cities and towns the danger of fire is minimized by strict building regulations.

Tests show that the wind movement of fifteen miles an hour against the side of a building will force 185 cubic feet of air through a one-sixteenth-inch crevice in an hour.

It's simply impossible to love thy neighbor as thyself if he is an amateur cornet player.

Blizzard Pond in Song and Story.

Arch Pool, night editor of the Courier-Journal, let his contention against the Blizzard Pond assessment go by default in the county court, but the Courier-Journal Monday morning took a very hefty fling at the drainage proposition, weaving romance and allegory around the swamp and old chief, Paducah.

It says:

"Hard by the river called Clark's lay the pond called Blizzard. The pond was old when Kentucky was young. It was a landmark before maps were made and before Kentucky history was thought about. Paducah, chief of Cherokees, found it a happy hunting ground ere he was gathered to his fathers. On its elastic borders he built his campfires unmolesied and smoked his pipe of peace, or his pipe of pipe, as the case may have been. Years before the coming of the white man the topees of Chief Paducah's tribesmen dotted its shores. Their trusty arrows carried the message of death to the red deer as he struggled through its labyrinth of cane; their wolf-scaring fagots lighted up the far off, circling hills and the love songs of their youths and maidens echoed and re-echoed through the stygian fastnesses of Blizzard Pond.

"True, Chief Paducah did not know the pond by its present name. In his own peculiar and picturesque language, doubtless, he called it some thing that meant big-drink-in-the-woods or lake-of-a-thousand-bullfrogs. At any event he is popularly supposed to have lingered around there until the paleface came conquering and to conquer. It is not recorded in the written annals of the treasured traditions of western Kentucky whether Chief Paducah sold his happy hunting ground to the white man for seventeen brass buttons, a red blanket and three fingers of fire-water, or whether he left the locality in a hope with the bullets of the paleface whistling through his head feathers and making dents in his limited buckskin wardrobe. Whether it was hocus pocus or by hot shot, the white man took possession and Chief Paducah having yielded up his goodly heritage, slithered up the ghost. How he went was a matter over which the white man did not speculate, the

TWO BOUTS

WITNESSED BY SLIM CROWD AT AUDITORIUM RINK.

Spectators Raise Purses for Fighters When Box Office Receipts Fail to Make Good.

Before a small crowd two good boxing bouts were pulled off last night at the Auditorium rink. The promoters, who arranged the match, expected to have a large crowd during the races. The first bout was between Phil Silverberg and Frankie White. The second bout was between Tommy Dixon and Billy Turner.

When time to call the fight the fighters refused to don the mits, but the crowd cheered in and gave a purse of \$50 for six rounds between Silverberg and White. They mixed it up lively. White did the leading, and was fast and shifty on his feet. Silverberg was cool and took punishment calmly and watched his opportunity to land a stiff blow.

In the bout between Dixon and Turner the little scrappers did not show the science of the first bout, but it pleased the crowd better. It was hammer and sling all the way through. Dixon was the sturdier and fought harder, but Turner was game and took his punishment without a whimper. He was forced to cover several times, but exchanged several good wallops. Cloud Styers was referee.

In bankruptcy.

In the district court of the United States for the western district of Kentucky, in bankruptcy.

In the matter of John R. Patterson, a bankrupt.

On this 12th day of July, A. D. 1909, on considering the petition of the aforesaid bankrupt for discharge, filed on the 10th day of July, A. D. 1909, it is ordered by the court that a hearing be had upon the same on the 24th day of July, A. D. 1909, before said court, at Louisville, said district, at 10 o'clock in the forenoon or as near thereto as practicable; and that notice thereof be published one time in the Paducah Sun, a newspaper printed in said district, and that all known creditors and other persons in interest may appear at said time and place and show cause, if any they have, why the prayer of the said petitioner should not be granted.

Witness the Honorable Walter Evans, judge of the said court, and the seal thereof, at Paducah, in said district, on the 12th day of July, A. D. 1909.

J. R. PURYEAR, Clerk.

A Failure—"Did you have any sort of a joy ride?"

"Nothing to brag of. We did hit three or four pedestrians, but not one was hurt seriously enough to go to a hospital."—Baltimore American.

A man will confess to one bad habit for the purpose of hiding a dozen others.

and diagrama and blue prints galore. The drainage project was started a year ago, and the McCracken county court is giving it a "hearing" as regularly as the monthly terms of court roll around.

"Blizzard Pond has become a burning issue. It is discussed and discussed at breakfast, dinner and supper. It is a live topic at all gathering places in Paducah, and the farmers are holding mass meetings in the country school houses. All topics are of secondary interest to the Blizzard Pond reclamation scheme. Some oppose the project in toto; some oppose the route selected; some think they have been assessed too high; some object to their lands being cut up by a drainage ditch; some are fighting it on the ground that they will reap no benefit. All sorts of questions have been raised and able lawyers have been employed. Every hearing brings new objections, new points of argument, new technical questions. A multitude of people are interested in the controversy and the plot is thickening all the time. A long and hard fight is promised that in all likelihood will extend through all the courts of the commonwealth.

"Blizzard Pond, erstwhile home of red man and haunt of forester, neglected by historians and often ignored by map makers, is coming into its own. Covering, like a great octopus, more than 1,000 acres of territory, it has laid dormant and forbidding for hundreds of years. From present indication it will be there for some time to come, its tentacles penetrating the alluvial soil of McCracken county and, likewise, leaving some indelible marks on court records and current history."

DUELS FOR HIS WIFE.

Husband is Killed by Man Who Was His Rival.

New Orleans, July 12.—A bloody duel between husband and the man charged with being responsible for the alienation of his wife's affections was graphically told of by Carl Herturn, slayer of John Knecht, hero today, according to police records. Hertuna, who was employed by Knecht, a banker, killed the latter Thursday.

"Knecht said to me that his wife thought more of me than she did of him, and we would have to fight it out," Hertuna is quoted as declaring. "He attacked me and we fought it out in the back room. I struck him down and then went and told Mrs. Knecht what I had done. Together we went down and viewed the body, and she then gave me money enough to leave town."

Hertuna was captured last night in Mobile. He made no effort against being brought back to New Orleans today.

WENT WET BY 1,000.

Dry of Stark County, O., Snowed Under by Enormous Majority.

Canton, O., July 13.—Stark county, at its local option election, cast a wet majority estimated at between 3,000 and 4,000. Canton has given the wets an official majority of 2,837. Massillon has given the wets an official majority of 1,754. Complete reports from Alliance give the wets a majority of 544. Of the 23 separating precincts yet to hear from the big wet majority cannot be overcome. Figures are given as follows: Alliance, total wet vote, 1,781; dry, 1,239. Massillon, total dry, 903; wet, 2,725. Thirty-six precincts outside of county: Wet, 2,759; dry, 2,723. Total wet majority in county, excluding 23 precincts, 4,100.

An Economical View.

A Scotsman and his wife were coming from Leith to London by boat. When off the Yorkshire coast a great storm arose, and the vessel had several narrow escapes from foundering. "Oh, Sandy," moaned his wife, "I'm as afeared o' deen't but I dinna care to dee at sea."

"Dianna thing o' deen't ye do," answered Sandy, "but when ye do, ye'd better be drowned at sea than anywhere else."

"An' why? Sandy?" asked his wife. "Why?" exclaimed Sandy. "Because ye wouldna cost sae muckle to bury."

It takes an expert female chopper to get rid of a dollar's worth of energy in an attempt to save 2 cents.

The State University
Lexington, Ky.

The State University, Lexington, offers the following courses, namely: Agricultural, Mechanical Engineering, Civil Engineering, Electrical Engineering, Mining Engineering, Chemical and seven Scientific courses each of which extends over four years and leads to a Bachelor's degree; also a Department of Law and a Department of Education, which has been established instead of the Normal School. Persons who enter this department prepare for advanced work in pedagogy and are granted a Bachelor's degree in this subject when completed. The Academy for preparatory instruction is retained.

County appointees receive free tuition, privilege of residence in the dormitories, fuel and light, traveling expenses, if they remain, ten consecutive months, or one collegiate year.

The laboratories and museum are large, well equipped, comprehensive and modern. Military Science is fully provided for as required by Congress.

The graduates in the several courses of study readily find employment with liberal remuneration. The total number of matriculants for last year was 1078. Each department has a specialist at its head, with the necessary number of assistants.

Young women had an excellent home, with board and lodging, in Patterson Hall, which is well equipped with all the modern conveniences, bath room, hall for physical culture, at \$3.00 per week. All courses of study in the University are open to women on identical conditions with those applying to males.

The completion of the Agricultural, Mining Engineering Laboratory and Education buildings afford ample and commodious quarters for these departments, which are rapidly increasing in the number of matriculants.

For catalogues, methods of obtaining appointments, information regarding courses of study and terms of admission, apply to JAMES K. PATTERSON, Ph. D., L.L. D., President or to D. C. FRAZEE, Business Agent.

FALL TERM BEGINS SEPT. 9, 1909

The Evening Sun's Daily Markets.

Livestock.

Louisville, Ky., July 12.—Cattle—Receipts 2,400 head. There was a very good attendance of buyers here, but owing to the liberal supply and depressed condition of the trade elsewhere, the market ruled dull and low, or from start to finish. Choice light butchers were steady to 14¢ to 15¢ lower; all other kinds of killing cattle were hard to sell at a 15¢ to 25¢ decline; grassy half fat steers and medium to good cows and heifers (grassy cattle) were the duller. The feeder and stocker trade was slow; the best barely steady to a shade off; others considerably lower. Good bulls steady; common dull; canners dull and lower. Milch cow trade very mean. Heavy cattle were dull and 10¢ to 15¢ lower. The pens were fairly well cleared, but the market finished slow.

Calves—Receipts 145; market steady; bulk of best 6¢ to 7¢; medium 4¢ to 6¢; common 2¢ to 4¢.

Hogs—Receipts 2,714. Market 5¢ to 10¢ higher; choice 165 lbs. and up \$8; 130 to 165 lbs. \$7.50; pigs \$5 to \$6.99; roughs \$7 down. Buyers discriminating against grassy half fat hogs. Market closed weak; looks a shade lower.

Sheep and Lambs—Receipts 11,836. The market ruled slow and lower; quality of the lambs rather common, and bulk of the best 8¢ to 8½¢ good many fair quality light lambs with but little trim at 6¢ to 7¢; seconds 5¢ to 6¢; culls 3¢ to 4¢.

Fat sheep firm, shade better, 4½¢ down; common sheep dull. Fair demand for choice stock ewes at steady prices.

St. Louis, July 13.—Cattle—Receipts 7,000, including 5,000 Texans; steady to 10¢ lower. Native beef steers \$1.50 to 7.10; cows and heifers \$2.50 to 6.85; stockers and feeders \$3.75 to 4.85; Texas and Indian, \$3.50 to 4.50; cows and heifers \$2.50 to 5.00; calves in earload lots \$5.25 to 7.25.

Hogs—Receipts 5,000; lower. Pigs and lights \$6 to 7.80; packers \$7.50 to \$8.10. Sheep—Receipts 4,000; 10¢ lower. Native muttons \$3.50 to 4.00; lambs \$6.50 to 8.95.

Movement of Leaf Tobacco.

Louisville, July 13.—The local leaf tobacco market developed no important change during the past week. The movement continued at a low ebb. While reported sales were larger than for the corresponding week last year, they included 1,180 hogsheads of dark tobacco belonging to the Italian region which were merely

sampled. Many complaints were heard of excessive rains preventing much-needed work in the crop.

There was an easier feeling in the burley market, due, no doubt, in large measure to crop prospects. Decline from ½¢ to ½¢ were noted all through the list. Offerings of burley were very light and they presented little of quality and were in only fair condition.

A firmer tone marked the dark division of the market and in some instances advances were in evidence. Auction sales brought out only 184 hogsheads, which on the whole were of poor quality and in poor condition. In air-cured types manufacturing leaf and extra long leaf ruled firm, while other grades were offered a bid or two. There was a fair demand at unchanged prices for dried or export leaf in good condition and a strong demand for all grades of lugs with an advance of ¼¢ noted for low and common lugs.

Auction sales for the week amounted to only 236 hogsheads. Private sales totaled 1,330 and the total sales of 1,566 compared with 1,308 in the corresponding week last year, 1,192 in 1907 and 2,173 in 1906. Receipts were 1,052 hogsheads, against 829 in the same week last year and 1,733 in 1907.

Paducah, Ky., July 3, 1909. Messrs. Hays & Miller Bros.: Gentlemen:—I am delighted to say to you that the sample bottle of Hays' Specific I used from you has done even more than you recommended or than I anticipated. I can truly and with confidence assure any one who uses it that it will not disappoint them in any case of Rheumatism or Torpid Liver. Further than this, I have not tried it, hence this deponent saith no further.

This July 3, 1909, Geo. W. Landram, attorney at law and master commissioner of

PETER PURYEAR,
Notary Public McCracken Co.
My commission expires, January 10, 1912.

Daily Thought.

"No man is master of himself who cannot control the guests in his heart."

Joas Smith should have known better than to start out with thirteen in the crowd.

It is not free thought so much as an independent living that attracts the fresh water college professor to the Carnegie fund.

Too many Kentucky editors are reporting observations of freak chickens with numerous legs since returning from Estlin Springs.

In constructing the projected new McCracken county jail it would be well to keep in mind the precept that iron bars do not a prison make.

That Cincinnati pastor, who conceived and executed the scheme of adding canary birds to the choir would do well to train his pets to assume becoming position on the ladies' hats, thus combining utility with spiritual service.

Louisville's municipal politics, always on a high plane, centers this year around the fight of John Whallen, proprietor of the Buckingham theater, to prevent the Galety, a proposed new burlesque house, being erected in competition. As we understand it, Whallen named the Democratic ticket with a view to blocking the Galety, and the Republicans have adopted the free trade policy in regard to that kind of theater. It doesn't speak well for Louisville that there is sufficient demand to warrant the building of another show house of that class.

FRIEND ED. DOESN'T LIKE PERCY.

Just one note of warning against the proposed appointment of Percy Haly secretary of the state Democratic committee, is heard and that comes from Ed. Leigh, editor of the Bowling Green Messenger and secretary to all the Democratic governors back to a time to which most of us dislike to revert with accurate personal recollections of events. He and Percy were both close to the throne during the Beckham regime and it is not always the case that two favorites are friendly and entirely frank toward each other.

Whatever the cause, this is what Ed. says about it:

"Some of the papers contain the statement that Chairman Combs, of the Democratic state campaign committee, will appoint Gen. Percy Haly as campaign secretary. In the interest of party harmony and party success, The Messenger sincerely trusts that the rumor is unfounded and that Senator Combs has no such intention.

"We might as well look the situation squarely in the face. The men prominent in party organization during the Beckham administration made antagonisms that would prevent any man prominent in that organization to command the support of the entire party. This would

apply to any other with perhaps equal force as Gen. Haly, except that he was more prominently identified with a particular faction than others.

"The Democrats have a right to regain control of the state. This is not a Republican state, and only became so at the last election because of a widespread distrust that had grown up, unreasonably enough it is true, of the administration of state affairs as well as of party management.

"No man actively connected with the party affairs of the past should be placed in the forefront at this time, either as party manager or as a candidate. We should pick new men from the ranks—new brains, new blood, new ideas, and new methods. Let's wipe out the slate and begin over again.

"There is no reason at this time to require the right and wrong of it."

If Jeffries is in earnest about fighting Johnson, no doubt, the Paducah Athletic association will offer something handsome for the bout.

AN EXPENSIVE UNIVERSITY.

Is the curse of this country from the concentration of wealth to be felt first in the intellectual overthrow of the people through the instrumentalities of highly endowed institutions of learning?

Chicago University, the newest and loudest of our institutions, built with the Rockefeller millions, is the center of attack just now. Magnificent writers are venturing spiritual decadence among the intellectual; Chicago professors are displaying their heterodoxy in big type, and the pulpit is returning the fire. Dr. John Wesley Hill, of the Metropolitan Temple, New York, declares emphatically that the best way to reform the University of Chicago is to put \$5 worth of dynamite under each of the four corners of the divinity school; and Cardinal Gibbons has solemnly warned Catholics against sending their children to American colleges under the instructions of professors from the atheistic universities of Europe.

Perhaps, Cardinal Gibbons has hit upon the crux of the matter. Europe is steeped in all sorts of material philosophies. Especially is this true of the unimaginative Teutons. America, with all her rush for gold and material development, has imagination and spirituality. The introduction of the philosophies of Europe into the schools of this country produce a shock, as of two inharmonious chemical elements coming togetherness. America intuitively rejects materialism.

A story is told (how true it is we do not know) but it emphasizes the fact that Chicago University lacks maturity, that Mr. and Mrs. Rockefeller, purposing the university, were riding through the grounds at Harvard with Dr. Elliot. "How much did it all cost?" inquired the Old King.

"Oh, some \$60,000,000," suggested Dr. Elliot.

Whereupon Mrs. Rockefeller responded quickly: "Why, we can afford a much more expensive university."

It is all very well for the multi-millionaires to use their money wisely for the benefit of mankind; but when they undertake to make of the educational institutions monuments of themselves, like all monuments, the institutions are likely to enslave unduly the men, who gave the money and the means by which they acquired it. Too great wealth has a tendency to corrupt morals, reduce conventionality to a by-word, and culture to a veneer for luxury. Small colleges, which are sacrificing their church affiliations for Andy Carnegie's cold cash, are catching the spirit of Mrs. Rockefeller's boast.

Kentucky Kernels

Title to Davies county jail under cloud.

Mrs. Jane Colley, wife of the Rev. A. O. Colley, dies at Fulton.

Seventy-five thousand Mayfield school bonds will be sold over.

Two young men seriously injured in free-for-all fight at picnic at Frankfort over young woman.

SOME STORIES AROUND TOWN

A local wholesale grocery house received an urgent letter, asking for credit from a prospective customer in Tennessee. He told all the good qualities of his trade and his personal character, but wound up with the equivocal statement, which lost him all he had said in the beginning: "I started out with nothing and I have held my own."

The following letter from Pittman Harth, of 326 North Ninth street, tells about an interesting trip he took in the Rockies with Mr. F. L. Scott and Frank L. Scott, Jr.:

We went up to Mr. Craig's house up in the Rockies yesterday.

We left Denver at 8 o'clock yesterday morning. In going up the mountains the train wound around and around and in and out like a serpent. We went through two tunnels in 15 minutes. After we got there we took over dinner and went way up on a mountain and ate our dinner. We were about 8,500 feet high. After dinner we climbed a peak called Lookout peak and climbed several others. We had Dr. Craig's field glasses and we could see for miles around. We could see the distant mountains with their tops covered with snow and the sun

shining down upon it and look in another direction and could see the large rolling plains stretching so far that it looked as if they and the sky met and you could see the lakes which looked like little dots or entities at a far distance.

On the way back to the cabin we gathered some flowers called Columbine, which is Colorado's state flower. They are blue with the most delicate color that I've ever seen. They are thinking about making it the national flower.

When we came back it was raining very hard and it was very cold. We could look down and couldn't see the valley on account of the clouds which we were above. We would go down and would look up and see the track just across from us but above us.

It was the prettiest trip that I've ever seen and I think that it was a regular education to me. Last night I slept under blankets and we had a fire, which seemed mighty funny for the Fourth and I expect that you all were burning up at home.

STATE PRESS.

Mayfield Messenger.

We can't tell which is the worst Paducah or Mayfield. They will have to draw straws and see which is entitled to the blue ribbon.

Fourteen prisoners at noon managed to break a hole in the wall of the jail in Paducah Saturday night and escape when the sun was at its meridian height and many people were in and about the jail and hundreds were passing to and fro about over the city. How this could happen at the time it did, none but the enterprising prisoner can tell.

They must have had an idea that they would save Judge Reed of a little trouble in trying them.

In Mayfield when a big revival had been going on in the Baptist church for two weeks under the good and wholesome preaching of Evangelist Sledge and with the sweet singing of Prof. Roof, that a man should be so wicked as to break into the church during the dark and dismal hours of night and steal the free contributions that had been given to pay the incidental expenses of the meeting, is beyond human imagination. We do hope that this wicked person, or persons, will be made to realize the error of his way before this meeting shall have come to a close, repent of his sins, and be buried deep in baptism and finally become a bright and shining light in the church and that he may prosper in this world's goods and grow in grace until he shall have contributed back to the church many times more than the amount he stole from the contribution fund which he found in the pastor's study.

Yet, and may the persons who escaped from the Paducah jail repent of their sins and go back to the jailer of McCracken county and humbly beg his pardon for damaging the jail and running away, while he was at home drinking tea, eating chicken and dumplings and perhaps feasting on the old-time pound cake.

The man who broke into the church and stole money during a revival has certainly reached the limit. It seems Paducah of late has had much trouble with her prisoners, that they will either commit suicide or break out of prison and make their escape, to the chagrin and worry of the officials, while enough sinners have escaped our revivals to invade the sanctuary and take therefrom the free-will pennies that have been given to aid saving people from their sins.

Bro. Sledge has more work yet to do, while the jailer of McCracken county must do a little more watching but, no less praying, in order to prevent the escape of his prisoners.

The Paducah jailer did not have the same experience as that of the Philippi jailer. The prisoners in the Philippi jail heard songs and prayers at midnight, when there came an earthquake and the doors of the jail were opened and the bands that held the prisoners were loosed. This did not happen at the Paducah jail.

When the Philippi jailer saw the doors of the prison open and the prisoners loose he drew out his sword and would have killed himself but he heard a voice saying, "Do thyself no harm; for we are all here." Nothing like this happened at the Paducah jail.

When the Philippi jailer heard this he trembled and fell down and cried out, "What must I do to be saved?" And they said, "Believe on the Lord Jesus Christ and thou shalt be saved and thy household." Nothing like this happened at the Paducah jail.

The reason this did not happen at the Paducah jail, like it did at the jail in Philippi, was because one took place at midnight, the other at midday. Another reason is that the Paducah jailer was not as badly frightened as the poor jailer at Philippi.

After revival services were over at the Mayfield church when the Evangelist and his flock were sound asleep, a thief in the night entered the pastor's study and the untainted money was stolen. Which of the two cities is entitled to the ribbon?

YOU DON'T HAVE TO WAIT.
Every dose makes you feel better. Lax-Fo keeps your whole system right. Sold on the Money-Back plan everywhere. Price 50c.

Nearly all of the fifteen thousand inhabitants of Marchneukirchen, Saxony, are engaged in violin making.

TO AUCTION EASTMAN RELICS.

Authorities Expect Big Prices for Souvenirs of Tragedy.

Easton, Md., July 12.—Probably the closing chapter in the Woodhill-Eastman tragedy will be ended next Saturday when all the personal effects of "Lame Hob" Eastman, the murderer of Edith May Thompson Woodhill, will be sold at auction at the court house. This announcement was made public today by W. Mason Sheehan, the Easton lawyer who has been given power of attorney by Winnie Bradcombe, the chorus girl wife of Eastman. The most valuable article to be sold is probably the motor boat in which Mrs. Woodhill took her last ride on Miles river on that fatal Saturday afternoon.

Among other things to be sold will be the bed on which the body of Mrs. Woodhill was placed after she was killed.

A great crowd is looked for at the sale. Good prices are expected, especially for the smaller articles that will make good "souvenirs."

"Murder farm," as the Eastman farm is known, it is believed will sell for double what Eastman paid for it last February. He purchased it, free from incumbrances for \$750.

DEMANDED \$10,000 FROM HIM

Lima, Ohio, Capitalist Gets a Black-Hand Letter.

Lima, O., July 13.—"Give us \$10,000 or your home will be blown up." That is the text of a letter signed "Black Hand," received by Henry Delsel, president of the Delsel-Werner Cigar company. The writer instructed Delsel to place the money at a certain place, and that unless he complied with the demands, his handsome home, recently completed at a cost of \$150,000, would be dynamited and "all the members hurled into eternity." Guards last night watched the place designated for the placing of the \$10,000, but no trace of the blackmailers could be found. Policemen and detectives also guarded his house throughout the night.

FRANCE TO TRY GEN. HARTING

Revolutionist's Charge of Plot to Be Heard Later.

Paris, July 13.—An official of the Russian embassy states that no action will be taken with regard to the charges of the Russian revolutionist Bourzest against General Harting, chief of the Russian political police in Paris, until the completion of the French government's inquiry. Bourzest charged that Harting was no other than Michael Landown, who was the organizer of the dynamite plot against Emperor Alexander III.

SHERIFF HELD A PRISONER

Angry Japanese Strikers in Hawaii Surround Him.

Honolulu, July 13.—County Sheriff William F. Jarrett is a prisoner in a plantation mill at Waimanalo, where he is surrounded by an angry crowd of Japanese strikers, according to a telephone message received here. A squad of mounted police and a dozen special policemen fully armed started in automobiles for Waimanalo in response to the sheriff's urgent message.

The total continental area of the United States, including Alaska, is about equal to that of all Europe.

POLITICAL NOTES.

ANNOUNCEMENT.

The Sun is authorized to announce the candidacy of Dr. Harry F. Williamson for the nomination for the office of County Court Clerk, subject to the action of the Republican mass convention, July 15.

Convention Call.

At a meeting of the Republican city committee held June 15, 1909, at 2:30 o'clock, it was unanimously resolved that the chairman be instructed to call a mass convention of Republicans to meet at the city hall, Paducah, Ky., July 24, 1909, at 2 o'clock for the purpose of nominating a city ticket to be voted on at the election in November, 1909, the viva voce method of voting being used.

E. E. BELL, Chairman.

June 15, 1909.

WORKING FOR A TARIFF BOARD

Delegates From Commercial Bodies Will Urge Incorporation.

New York, July 13.—Delegates of a number of New York business associations will go to Washington early this week to urge that a tariff commission be incorporated as a part of the tariff bill finally agreed upon by the senate and house conferees.

The bill has been introduced by H. E. Milles, chairman of the committee appointed at the Indianapolis tariff convention, which approved the plan for a tariff commission. Delegates from commercial bodies from other parts of the country will meet the New York delegation at Washington and the combined gathering will urge the need of a change in present tariff making methods. A statement issued in behalf of the delegation says:

"A canvass recently conducted among 1,000 commercial bodies throughout the country shows that fully 90 per cent of these organizations favor the creation of a tariff board, or some satisfactory method of handling this perplexing business proposition in the future. The figures quoted show a total membership of the 1,000 commercial associations exceeding half a million corporations, firms, and individuals. The approximate total capitalization exceeds the enormous sum of \$14,000,000,000."

RECEIVER FOR RACKET SHOP

Judge Dickson Puts Attorney in Charge of Cincinnati Concern.

Cincinnati, July 13.—Judge Dickson today appointed Attorney Stone receiver of the Consolidated Stock and Grain company, the alleged racket shop firm recently raided and put out of business through the efforts of County Prosecutor Hunt. The receivership suit was filed by Attorney Hosea and Knight on behalf of George A. West, who was the company's correspondent at Terre Haute, Ind., and who claims there is due \$1,830 from the company to him.

West asserts that the company is insolvent and unable to continue in business because of the action of the prosecutor, who has possession of its books.

The judge fixed the bond of Receiver Stone at the nominal amount of \$2,000. This, however, will be increased if any assets are turned up sufficient to justify a greater bond.

WENT OVER NEW YORK

Crowds Along Broadway Interested in Frank Goodale's Flight.

New York, July 13.—Crowds along Broadway today were interested spectators of a flight by Frank W. Goodale, a young aeronaut, who drove his dirigible balloon high above that thoroughfare from One Hundred and Sixteenth to Forty-second street. Starting from an amusement park across the Hudson, in New Jersey, he rose 3,000 feet.

CASTRO RENOVATES RIGHTS

Wants Enough Venezuelan Soil to Be Buried In.

Santander, Spain, July 12.—In the manifesto addressed to Venezuela, and in which the former president justified his rule from political, military, diplomatic and administrative standpoints, Gen. Castro renounces his right to the presidency and asks only for a piece of ground, that he may die on his native soil.

ROVERS' REGISTER IS LATEST.

Mobile, Ala., July 13.—In order to enforce the prohibition laws of the state of Alabama, Sheriff John S. Drago last night and today placed deputy sheriffs in front of every near beer stand in the city, armed with a pencil and books, and all those who entered the places had their names recorded. The object is to secure evidence that they bought liquor in the places. The placing of the deputies at some of the places on the principal streets caused a sensation and hundreds of men gathered around the officers as they took the names of those who came in and went out of the various establishments.

The Summer Girl's Own Thing.

There's no need of telling the girls how to enjoy the summer time; it is their own season. If a man is no blind that he cannot see the charm of the summer girl he doesn't deserve a fascinating wife. He deserves to worry along through life as a lonely old bachelor and have his estate absorbed by an asylum for orphan paupers.

For she is a vision of beauty and a dream of delight. From the low in her hair down to the fetching slippers that cover her little feet, from her glowing cheeks to her parasol, from her peep-a-boo waist to her irresistible manner, she is the central feature of the landscape, the joy of the nation, the catch of the season—the summer girl.—Baltimore Sun.

Mrs. Handout—I would like to know if you are a trustworthy character?

Dusty Stryper—Why, lady, at the last place I worked they called me a trusty!—Puck.

Some men are satisfied to work for glory, but when the haker does a labor stunt he wants his dough.

A record of 412 miles in four days has been made by an Alaskan dog team.

FOR SALE

This beautiful summer home, situated on the Hinkleville Gravel Road, two and one-half miles from city, one mile from car line. Five acres of land. Concrete residence, eight rooms, pantry, bath room, large front and back porch. Fine cold well water. Fine young fruit orchard and other small fruits.

School children will be carried to and from school free of charge. Will sell for less than cost on reasonable terms. Mrs. Jas Mattison, Rt. F. D. No. 1, Paducah, Ky. Cumberland phone 2236 ring 1.

PANAMA SWIFT BY HURRICANE

Damage Is Great—City Is In Darkness.

Panama, July 13.—A hurricane of unusual severity occurred here, doing much damage to property. The electric plant in Panama was put out of commission and the city was left in darkness, which served to increase the alarm. At the time there was a great crowd at the National theater, at which Maria Guerrero, the noted Spanish actress, was performing. The performance came to an end, but the audience remained comparatively quiet.

Many of the residents, who were unaccustomed to such violent storms, left their houses seeking safety within the churches, the doors of which were thrown open to shelter the crowds.

Telegraphic communication has been interrupted and the advices are meager as to the damage wrought throughout the isthmus. It is feared the interior and coast towns have suffered considerably. The government has dispatched two steamers to make an inspection of the coast.

I. C. RAILROAD MAY GO INTO KNOXVILLE.

Knoxville, Tenn., July 13.—It is believed by many that the Illinois Central railroad will come to Knoxville. Some one has surveyed the field between Knoxville and Harrison, and it is thought that the Illinois Central will take up the Tennessee Central and build a new line from Knoxville to Harrison and connect with the Knoxville, Sevierville & Eastern railroad that is now under construction, which will be extended so as to reach the Seaboard Air Line in North Carolina.

IF IT'S ONLY A HEADACHE

Why torment your headache liver pills will cure that. 10 cents. Guaranteed by all druggists.

"Did you advise your daughter to learn the use of money?"

"Yes; and it was a foolish move. She immediately demanded some to practice with."—Louisville Courier-Journal.

Bugs Wanted.

The Sun Job Office, 113 South Third street, wants some clean, large cotton rags, free of buttons and hooks and eyes, and will pay a good price for them. Call over either phone.

Big Economical Savings in
Every Department

THE LOCAL NEWS

—Dr. Gilbert, osteopath, 400 1/2 Broadway, Phone 196.

—Rubber stamps, seals, brass studs, etc., at The Sun office.

—Telephone The Sun office for samples and prices of all kinds of typewriter papers.

—Wallpaper, 50 patterns, 5 cents per roll. Kelly & Umbaugh.

—Home-grown cut flowers of quality. Fresh flowers daily. Brunson's, 529 Broadway.

—The greatest variety of typewriter papers from onion skin to heavy ledgers, and in sizes from half letter to legal, at The Sun office.

—Tom Osburn, an employee of the West Kentucky Coal company, was overcome with the heat yesterday afternoon shortly after 3 o'clock while at work. He was carried to Riverside hospital in the patrol wagon, and today was resting easy.

—A staff meeting of the officials of the Louisville division of the Illinois Central railroad will be held in Louisville tomorrow. The Paducah officials will leave early tomorrow morning for Louisville to attend the meeting.

—8-year-old Bottled-in-Bond goods only served over Palmer House Union.

—A rally of the Farmers' Union will be held tomorrow at Heath. Officers of the union will make addresses while a barbecue dinner will be served. Several hundred people are expected to attend the rally.

—The board of public works is improving Broadway from Eleventh street out with crushed stone. Crushed stone costs the same as gravel and it makes a much more attractive and durable street.

—The opinion of Judge Walter Evans, in the case of the city against the East Tennessee Telephone company has been received and the attorneys are now engaged in drawing up the decree.

—Captain John M. Slaughter, of the Central fire station, returned to work this morning after spending his week's vacation. John McFadden, of the No. 4 fire station, began his week's jaunt this morning.

—Albert White, a young man, was arrested today by Patrolman Hoeder on the charge of flourishing a pistol. It is alleged that White became disorderly last night and refused to pay his cab fare. When requested by the cab driver he is said to have flourished the gun.

The Evening Sun—10c a Week.

NEW DISPENSER FOR THE NEW ICELESS FOUNTAIN

Mr. Tate Collins, direct from the Hertz Pharmacy, now Seelbach Hotel, Louisville, is now in charge of the handsome new Sanitary Iceless Fountain—and our patrons say that he is an artist, too.

No Paducah fountain has ever served such a large number of new drinks, so tickle-some to the palate—deliciously cooling and refreshing beverages which it makes one thirsty merely to see. Just try one of these new specials:

Mint Lemonade,
Coney Island Sundae,
Claret Cup,
Egg Orange,
Royal Fruit Sundae,
Coney Island Dip.

Dance Thursday Night.

The list for the dance to be given at the park Thursday night is now at Culley's. There are a number of out-of-town visitors expected for the occasion and the event promises to be a very delightful affair.

Her Eighteenth Birthday.

Miss Ella Payne entertained her many friends with a charming lawn party on the eve of July 10, her eighteenth birthday, at her father's country home near Massac. She was assisted in serving food, cakes and fruits by a host of happy girl friends. The lawn was attractively lit up with Japanese lanterns. The tables were beautifully decorated with cut flowers. Among those present were: Mr. and Mrs. W. T. Smith, Mr. and Mrs. Porter, Mr. and Mrs. Grimes, Mr. and Mrs. Tom Overstreet, Mr. and Mrs. Woods, Mr. and Mrs. Less Payne, Mr. E. Payne, Misses Ethel Scopes, Irene Scopes, Kittle Woodward, Lucille White, Daisy Price, Jewell Price, Annie Gholston, Mable Hines, Willie Humphrey, Leander Turdon, Willie Lee Smith, Eulalie Foster, Una Langston, Elsie Langston, Nevada Hudolph, Iva Ezell, Vera Cunningham, Ella Payne, Annie Miles, and Messrs. Willard Rudolph, Ward Rudolph, Mark and Quet Smith, Paul and Elias Foster, Evner and Julian Mitchell, Herbert Hunt, Willie and Henry Veners, Ernest Rudolph, William Weitlauf, Willie Ezell, Luther Harris, Gus Marshall, Ovie Grimes, Joe and Ernest Trice, John Warner, Clyde Johnson, Charlie Overstreet, Harry Murphy, Grover Gish.

Woman's Club Meeting.

The Woman's club will hold a business meeting tomorrow morning at 10 o'clock.

In Honor of Her Guest.

Miss Nancy F. Baker will entertain Wednesday evening with a dance at Wallace park in honor of her guest, Mrs. Carroll Combs, of Crawfordville, Ill. About fifty couples will be present.

Pretty Morning Wedding Tomorrow.

The marriage of Miss Adelaide Byrd and Mr. Walter Keim Durden, of Lexington, Miss., will take place tomorrow morning at 8 o'clock at the Broadway Methodist church, the Rev. G. T. Sullivan officiating. The wedding will be a pretty morning affair. It will be simple with the ushers as the only attendants. The ushers will be: Mr. Melville Byrd, Jr., brother of the bride, Mr. George Scott, Mr. Will Henneberger, and Mr. Ernest Bell. The church will be decorated with palms and flowers. After the ceremony the couple will leave at 9:10 o'clock on an eastern bridal trip. After August 10 the couple will be at home in Lexington, Miss.

Miss Sarah Miller, 305 Clements street, left today for Madison, Ind., on a visit to friends and relatives.

Miss Geneva Davis, of Corvallis, is visiting Mr. and Mrs. W. R. Davis, of Twenty-ninth and Tennessee streets.

Mrs. George Oehlschlaeger and little daughter, Elizabeth, left today on the steamer City of Saltillo for St. Louis on a visit to Mr. Emmett Oehlschlaeger.

Miss Julia Husbands, of Arcadia, is ill with malaria.

John G. Miller left this morning for Kuttawa on a several days' business trip.

Mr. Byack Owen left this morning for Carbondale, Ky., on business.

Mr. Harry Doerner returned last night from Terre Haute, where he has been for two weeks on a visit to relatives and friends.

Mr. F.W. Katterjohn left last night for Greenville, Miss., on business.

Miss Anna and Miss Ella Larken, Mrs. Oscar Kahn and Miss Henrietta Kahn, Mrs. Harvey Allen, Miss Elizabeth Singleton, Miss Willie Rook and Miss Viola Ullman left today for Louisville on a visit.

Miss Inez Trent, of South Seventh street, has returned from St. Louis after a visit to her brother, Mr. John R. Trent.

Miss Minnie Hitz will leave Friday for Evansville on a several weeks' visit to her parents.

Mr. and Mrs. George Walters and children will leave Friday for Decaturville, Tenn., to spend a week with relatives. Mr. Walters will return next week, but Mrs. Walters will go to Jackson, Tenn., to visit.

TORCH IS BEING APPLIED.

Furnaces at Ensley Are Going Into Blast.

Birmingham, Ala., July 13.—The placing of a 50,000-ton export order for steel rails with the Ensley plant of the Tennessee Coal, Iron and Railroad company Saturday has put a final quietus on the month of the croakings and doubtings in the Birmingham district. The order is for shipment to Buenos Ayres.

The Ensley plant, which has been operating on a shift for the past few weeks will be increased and additional blast furnaces are being gotten in shape for immediate operation to supply the demand for basic iron.

No. 1 blast furnace at Ensley was lighted yesterday and will be making iron in a few days. No. 3 is being put in shape and it is understood that it will be put back into blast in a few days.

All the five furnaces of the Tennessee company located at Bessemer have been put in operation and are now running on full time.

Garry Hermann to Get Job.

Cincinnati, July 13.—Whether he is successful at Los Angeles in winning the fight for the post of grand exalted ruler of the Elks or not, August (Garry) Hermann, of this city, will be given a handsome recognition by Mayor Markbreit, of this city, on the return of the former from the Pacific coast.

Mayor Markbreit announced today that he will appoint Mr. Hermann a director of public safety at a salary of \$8,000 a year.

NOTICE.

To the Ladies of Paducah.

We wish to announce that, commencing July 14 at J. K. Bonds' drug store, 215 Broadway, we will demonstrate the finest line of toilet preparations on the market. From the hours of 9 a. m. to 6 p. m., we will massage your face free of charge, and be pleased to explain to you the use of our preparation.

The Puritan Beauty Preparations.

Miss Ethel O'Brien has returned home after a two months' visit in Springfield, Tenn.

Roy Willet went to Princeton this morning.

Dr. H. T. Haessig returned this morning from Louisville, where he has been attending the bedside of his wife, who is improving.

Mrs. Elizabeth Jones, of 502 Washington street, is seriously ill with eye trouble.

Mr. and Mrs. F. D. Dunant will leave today for a two weeks' trip through the east.

Mr. John W. Keller has returned from a business trip through Texas. Misses Madeline and Julia Cook left yesterday for Clarksville, Tenn., to visit their mother.

Otie Overstreet and son, Robert, have returned home from Mayfield. Miss Mary Overstreet remained on a visit to Mrs. C. W. Roswell.

Mrs. Belle Walker and Mrs. Leo Quilzell, Miss Lillie Hurst and Mr. Ernest Smith are visiting relatives in Louisville.

Mrs. John Orme, of Lakeland, Fla., is visiting in the city.

Mr. and Mrs. James Greenbaum have returned from their bridal trip through the east.

Miss Rubie Crutchfield, of Cornie, Ark., is the guest of her aunt, Mrs. Elizabeth Jones, 503 Washington street.

Miss N. H. Ashwill has gone to Elizabethtown, Ill., on a visit to friends.

Miss Ruth Koegel, 526 Clark street, has gone to Newport on a visit. From Newport she will go to Pittsburgh for a several weeks' visit.

Mr. Newton Broadway has gone to Cape Girardeau, Mo.

Misses Sadie and Alice Hamilton, of Decatur, Ill., are visiting their brother, Mr. Ed Hamilton, 516 North Seventh street.

Mr. Harold Williamson has returned from Bandana after a visit to Mr. Heyman Titworth.

Mrs. Armour Gardner and Mrs. Henry Rudy and child left yesterday for Crystal Lake, Mich., to spend the summer.

Mrs. Harry Hinkle has returned from a visit to friends in Evansville and Owensboro. Mrs. Walter B. Pace has returned to her home in Louisville after a visit to her mother.

Mr. Harry Kelley returned this morning from Chicago, where he has been several days on business.

Miss Sarah Miller, 305 Clements street, left today for Madison, Ind., on a visit to friends and relatives.

Miss Geneva Davis, of Corvallis, is visiting Mr. and Mrs. W. R. Davis, of Twenty-ninth and Tennessee streets.

Mrs. George Oehlschlaeger and little daughter, Elizabeth, left today on the steamer City of Saltillo for St. Louis on a visit to Mr. Emmett Oehlschlaeger.

Miss Julia Husbands, of Arcadia, is ill with malaria.

John G. Miller left this morning for Kuttawa on a several days' business trip.

NEWS OF COURTS

Will Probated.

The will of Mrs. American Dismukes was filed in county court for probate. To her son, John A. Kimmel, of Charleston, Mo., she left \$1 and to her grandchildren, Jack and Fred Reynolds, of Mayfield, she bequeathed \$1 each. The remainder of her estate was left to her husband John C. Dismukes. William E. Black was named as executor.

Deeds Filed.

S. W. Washington and Nellie Washington to A. S. Elliott, property on South Fourth street near Jackson street, \$1 and other considerations.

George U. Drewery and Carrie Drewery to Atkins Lander, property in the Norton & Harris addition, \$350.

The West End Investment company to Z. T. Dismukes, property in the western part of the city, \$412.50.

Mrs. Josephine Jacobs to Neely Thompson, property on the southwestern corner of Clay and Fifteenth street, \$1 and other considerations.

The West End Investment company to Z. T. Dismukes, property in the western part of the city, \$450.

Marriage Licenses.

W. K. Durden, of Lexington, Miss., and Miss Adelaide Byrd.

In County Court.

The objection of McCracken county to the assessment for the drainage of Hillzard pond was on trial this afternoon before County Judge R. T. Lightfoot. This morning the jury inspected the pond and the trial was resumed this afternoon at 2 o'clock.

The case of Arch Poot went by default yesterday and will be tried out in the circuit court.

WITH WIFE, KILLS HUSBAND

Kankakee Physician Reverses Usual Method of Procedure.

Kankakee, Ill., July 13.—J. H. Saylor, vice-president of the First National bank, of Crescent City, Ill., was shot and killed Sunday night by Dr. W. Miller. Mr. Saylor went home and found Dr. Miller there with Mrs. Saylor, wife of the man slain. The shooting was not made public until today.

Mr. Saylor attended a ball game Sunday afternoon. On returning home he found Dr. Miller and Mrs. Saylor at the house. Saylor referred to Miller's attentions to Mrs. Saylor, which he said had been too ardent for two years. Dr. Miller then drew an automatic revolver and killed Saylor.

Several days ago Dr. Miller sent his wife and family away. Coincidentally Mrs. Saylor sent her 47-year-old daughter on a visit.

Dangling a War Bait.

In his speech to the British Journalists Lord Rosebery failed to point out a single question which is likely to lead to a European war. He named not one thing in the existing situation that threatens the world's peace—nothing, except the frantic preparations for war that are being made on every hand. Everywhere public men and governments preach peace and profess to be seeking peace, yet everywhere public men and governments are acting as though war were imminent and inevitable. When Lord Rosebery says that he regrets the outlook as "ominous, almost appalling," there can be little doubt that he reflects the dominant feeling both of his own country and the continent. All Europe is on the tenterhooks of apprehension, not because of any real grievance of one power against another, but because hysteria has usurped the place of reason.—EX.

WILL BE BURIED IN MEMPHIS.

New York, July 13.—The body of Marcellus Pointer, the interlop Confederate colonel who died on July 10 at the old Atlantic hotel, Oliver street and New Bowers, will be buried at Memphis, Tenn., with due honors.

The body is now at the morgue, but Major Edward Owen, of 27 West Eighty-sixth street, who is commander of the Confederate camp of this city, received a telegram today from Philip Pointer, of Como, Miss., a brother of the colonel, which directed him to send the body to Memphis.

—Homer Rogers, colored, who was shot by Giles Cox, colored, Sunday at Union Mills, died this morning at the county sanitarium. Cox has not been arrested, but is in the county and making no effort to escape.

—John Thurman, of Murray, was tried before United States Commissioner Armour Gardner on a charge of bootlegging this afternoon and put under bond of \$100. He was arrested by Deputy Marshal Elwood Neal.

Figuring Pads

We have a nice lot of paper both for pencil and pen use which, while it lasts, will be made up into scratch pads to suit at the uniform price of five cents per pound or twenty-five pounds for \$1.00. Just the thing for the desk. Call either phone.

S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleansing it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continuously day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write. THE SWIFT SPECIFIC CO., ATLANTA, GA.

A Memory.

I remember, I remember,
The snows we had last year,
The whistling wind upon the hill
That sounded bleak and drear;
The frozen streams, the icy roads,
The rattle of the sleet,
With people wrapped in overcoats
Skidding down the street!
—Baltimore Sun.

Some men go to the dogs gradually, some get there immediately by going into politics.

An optimist always looks on the bright side of other people's troubles.

STILL NO RAIN

PLANT SHOWS EFFECTS AND WELL SOON DETERIORATE.

Elsewhere the Crop Is Doing Fairly Well, but the Plant in Miss. Still Is Small.

Memphis, July 13.—Returns from the cotton crop this week are mixed. Improvement is noted in Georgia, Alabama, Mississippi, Tennessee, Arkansas, Oklahoma and Northern and Eastern Texas. No improvement or loss occurred in North Carolina, South Carolina, Louisiana and Central, Southern and Western Texas.

The plant in Arkansas, Oklahoma and Northern Texas is large, fruiting well, thrifty and full of promise. East of the Mississippi river, although improvement has taken place as noted, the plant is small and not always healthy and occasionally stands bad. The crop promise is regarded as still uncertain, although with favorable weather for the remainder of the season a fair yield can be made.

Heavy rains in North and South Carolina delayed the cultivation and much grass is still complained of. Dry weather there is greatly desired. Much apprehension exists throughout Central and Western Texas of a summer drought. It has not rained there for two weeks or more, and temperatures have been very high. The plant shows the effect. As yet no great damage has resulted, but it is believed that the crop has reached a point where it will soon deteriorate without moisture. Boll weevils are numerous in Louisiana, but elsewhere complaints are not frequent.

NINE BOYS IN THREE YEARS.

Itawamba County Mother Has Twins, Triplets and Quadruplets.

Amory, Miss., July 13.—The question of race suicide and immigration has been discussed with growing interest for the past few years. As the interest in the question has grown the demand became more specific for a greater posterity. There is a citizen of Itawamba county whose zeal in the matter places him near and dear to our ex-president and others who have been agitating the question. In the past few years the stark has made three successive visits to the home of Frank Salts. The first time two boys were left, the second time three, and the third time a few days ago, four boys were left. This makes a total of nine boys for the three visits of the stark.

All the children are doing nicely and the proud father has turned his attention to the pursuits of his farm.

If a boy and a half eat a green apple and a half in a minute and a half how will they feel in an hour and a half?

A millionaire can say more in ten words than a penniless man can in 10,000.

A Promise to Pay

Would you accept a stranger's note? No. Then why accept from a stranger any other promise to pay? A Fire Insurance policy is such a promise. Ought you to accept it without knowing all about the Company? Your usual business confidence is based on knowledge. Why make an exception in that part of your business which deals with insurance? A name is worth nothing on any kind of a promise to pay unless it is backed by character and resources.

We favor insurance knowledge, particularly about our companies. Their promises to pay have never gone to protest. Their obligations to its policy holders are backed with such a good reputation and such ample financial resources that the more you know about them the more you will want protection by their policies.

WHEAT BULLISH PRICES STAY UP

REGARDLESS OF FAVORABLE GOVERNMENT REPORT.

Heaps Stop Selling on Account of the Heavy Rains—Corn Is Still Active.

PROVISIONS HOLD STRENGTH.

Chicago, July 13.—The July report given out by the government on the condition of grains and weather conditions were the chief price-making influences in the wheat market last week, and both were bullish, the weather conditions extremely so. On only one day did the bears have their feelings. That was on Tuesday when liberal receipts of new wheat at south western markets and fading premiums for cash grain everywhere caused selling pressure to increase rapidly and prices slumped off.

Wet weather in the harvest sections of the winter wheat belt, however, caused a change in speculative sentiment later and prices more than regained the loss sustained on Tuesday. At the close of business Friday advances for the week were 2 1/2 cents for July, 5/8 cent each for September and May and 1/2 cent for December.

Heavy Rains General.

Heavy rains were general from the Missouri river east through the entire Ohio valley. This meant delay in harvesting, thrashing and marketing. Bears in general stopped selling and a number of them covered short wheat. Leading longs added to their holdings, which, of course, increased the anxieties of outstanding shorts. Cash wheat prices southwest recovered a part of the loss sustained on Tuesday and the demand for the cash grain was better. There were claims of a fair amount of export business done, but these claims were not entirely endorsed by all of the export houses. A few of the latter claimed that bids abroad were few and far between working limits.

Offerings of New Wheat.

Country offerings of new wheat were not as large as has been expected. They were liberal enough, however, to indicate a pretty general selling disposition on the part of the producer. The purchases in the country were very light, due to some extent to the heavy rains, but there was a steady and gradual increase until at the end of the week the aggregate had swelled to very respectable proportions. The world's available supply statement for the week showed a decrease of only 2,000,000 bushels, which compared with a decrease the previous week of 6,815,000 bushels and with a decrease the corresponding week last year of 4,691,000 bushels.

Heavy Buying of September.

Among the prominent features of the speculative market during the week was the very heavy buying of September and December wheat by the Armour Grain company and of December by Peavey and Bartlett. Patten. It will require a large line of cash grain to fill contracts already made for July delivery. It is estimated that the Patten following holds 5,000,000 bushels, and there is every prospect that the leaders at least intend to get delivery.

Government Report.

While the government report indicated a bountiful crop of wheat the trade continued the report as bullish because farm reserves were given as only 15,952,000 bushels, the smallest on record, being only 2.3 per cent of last year's crop, and compared with 33,797,000 bushels, or 5.3 per cent, a year ago and 13,608,000 bushels for July 1 in the past ten years. A point made in the government's report which was regarded as especially significant was the giving the "conditions on July 1, or when harvested." With only 26,800,000 bushels in the available supply in the United States it brings it down to a minimum and the highest in years, so that there is only this year's crop to fall back on, and the spring wheat has not been harvested. In fact it will not be harvested for some time and is liable to much injury between now and harvest time.

In a general discussion of the government report by the traders it was the opinion that it did not indicate low prices for wheat for the next twelve months. Some construed it as bringing this country down to a point where it will be necessary to keep prices at a figure that will not admit of heavy exports.

Condition of Spring Wheat.

The condition of spring wheat is said to be fine, the greatest danger to the growing crop being the possibility of black rust. The wheat is said to have a very rank growth in some places and conditions are perfect for the rust to develop. As yet no black rust has appeared, but there is plenty of red rust.

John Inglis, the crop expert, completed his examination of the winter wheat crop last week and estimates a total crop of 369,400,000 bushels, or 25,000,000 bushels smaller than last year. Inglis reports that the big improvement made during June by the crop in general was partly offset by serious blight in several important states east of the Mississippi river, especially Kentucky, Tennessee, parts of Ohio and Indiana. Mr. Inglis estimates the winter wheat crop of Kentucky at 8,000,000; Tennessee, 8,999,

ITCHING SEEMED TO BE INCURABLE

Terrible Red Patches on Face and Arms Made Victim Ashamed to be Seen—Suffered Intensely for Ten Months—Expert Treatment Gave No Relief—Two Sets of the

CUTICURA REMEDIES ENTIRELY CURED HER

"About two years ago I contracted eczema and suffered intensely for about ten months. At times I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go out. I was advised to go to a doctor who was a specialist in skin diseases. But I received very little relief. I tried every known remedy, with the same results. I thought I would never get better until a friend of mine told me to try the Cuticura Remedies. So I tried them as the last resource, and I am very glad that I did, for after four or five applications of Cuticura Ointment I was relieved of my unbearable itching. I used two sets of the Cuticura Remedies (Soap, Ointment and Pills), and I am completely cured. I always recommend Cuticura to any one that is suffering and in every case it seems to cure. Miss Barbara Kral, 629 Mt. Pleasant Ave., Highlandtown, Md., Jan. 9, '08."

Fretful Babies Suffering from Skin Humors, Soothed to Sleep by Cuticura.

A warm bath with Cuticura Soap and a gentle anointing with Cuticura Ointment, purest and sweetest of emollients, afford immediate relief in the most distressing forms of itching, burning, scaly and crusted humors, eczema, eruptions, inflammations, irritations and chafings of infancy and childhood, permit rest and sleep and point to a speedy cure when all other remedies fail. Guaranteed absolutely pure and may be used from the hour of birth.

Cuticura Soap (25c), Ointment (50c), Resolvent (50c), and Pills (25c) are sold everywhere. For free trial, send 10c. to Cuticura Remedies, Dept. 177, Station Ave., Boston.

600 bushels; Indiana, 35,000,000 and Illinois, 26,000,000 bushels.

Corn Continues Bullish.

Although the government crop report on corn was most flattering and indicated a possible yield of 3,117,000,000 bushels, the trade continued its bullish attitude because of the light receipts at the present time. One of the most remarkable situations ever known in the corn trade here has recently developed. July shorts are in a most painful predicament and about their only prospect of relief is from a loosening up of offerings by producers or country dealers. It is estimated that about 10,000,000 bushels of corn have been sold by local shippers to be loaded on this month. Shippers have protected themselves by buying July delivery, but find that the property has been sold mainly by speculators with a pencil and card, who have no facilities for delivering the property which they have sold. Meanwhile the eastern buyer, who finds his property rapidly appreciating in value, shows no disposition to release the western shipper from his obligation. The latter is, therefore, in no position to relieve the distress of the shorts. The latter have been scrambling for the car-lot arrivals here, but find themselves in competition with shippers who have been selling corn heavily. It is quite likely that the rapid advance in cash corn prices will stimulate farmers' sales just as the break that they off.

Bartlett-Patten Warning.

Bartlett-Patten regard the July corn situation as dangerous and are advising their friends who are short to cover. July corn advanced 2 1/2 cents last week, September was unchanged, December and May, deferred futures lost 1/4 cent each.

Shorts in oats also are beginning to get scared. Receipts are light, as

COULDN'T FOOL HIM.

Doctor Was Firm and Was Right.

Many doctors forbid their patients to drink coffee but the patients still drink it on the sly and thus spoil all the doctor's efforts, and keep themselves sick.

Sometimes the doctor makes sure that the patient is not drinking coffee and there was a case of that kind in St. Paul, where a business man said:

"After a very severe illness last winter which almost caused my death, the doctor said Postum was the only thing that I could drink and he just made me quit coffee and drink Postum. My illness was caused by indigestion from the use of tea and coffee."

"The state of my stomach was so bad that it became terribly inflamed and finally resulted in a rupture. I had not drunk Postum very long before my lost blood was restored and my stomach was well and strong and I have now been using Postum for almost a year. When I got up from bed after my illness I weighed 98 pounds and now my weight is 120."

"There is no doubt that Postum was the cause of this wonderful improvement. I shall never go back to tea or coffee but shall always stick to the food drink that brought me back to health and strength."

Look for the little book, "The Road to Wellville," in packs. "There's a Reason."

Ever read the above letter? A new one measures from time to time. They are genuine, true, and full of human interest.

also are local stocks. Covering by the shorts advanced the July price 2 1/2 cents for the week, while the net gains in other months were slight. Oats specialists construed the government as moderately bullish. Conditions had deteriorated since July 1 and the crop is in a critical condition and will be for the next three weeks, the final yield depending entirely on the weather.

Provisions are quiet, but strong. The Cudahy Packing company and investors were the principal buyers, taking lard principally. Some of the other packers were credited with sales of lard at top prices. Price changes for the week were very unimportant.

YALE YARNS.

Some Stories Told on the Absent-minded Professors.

The absent-mindedness of President Hadley, of Yale, is a byword. He boarded a street car one day, and seeing his old friend, the late Professor Seymour, step on the same car he rushed up and eagerly shook hands with the conductor, while indifferently dropping a nickel in the hand of the famous Greek scholar.

Another day Dr. Hadley reached his recitation room when he suddenly remembered that he had left his watch. He must begin his recitation in a few minutes, says The Bohemian, so to see if he would have time to go for the missing timepiece he automatically reached into his pocket, drew out the watch which he had put there after all and glancing at it exclaimed: "Yes, I'll just have time to get it," and started home on a run.

Eccentric though he is, President Hadley is never without a ready and witty remark. Yale's Sunday services are addressed by prominent clergymen of many denominations and from many cities. When these visiting preachers occasionally ask President Hadley how long they shall speak he invariably replies: "There is no limit, sir, upon the time you may preach, but there is a Yale tradition that no souls are saved after the first twenty minutes."

Prof. Henry Hoers, of Yale, is a typical exponent of the most old-fashioned sort, and his oddities have given rise to a mythology of absent-mindedness. On leaving his lecture room one day he planned a notice on the door to the effect that he would be back at 4 o'clock.

Returning some time earlier than he had expected he was attracted by the notice. He read it thoughtfully, looked at his watch, and seeing that the professor would not be in for fully ten minutes yet, sighed and turned away to kill the time till he himself would return.—New York Sun.

BYRAN ON INCOME TAX.

Action By States Is Urged By the Nebraskaan.

Lincoln, Neb., July 13.—Mr. Bryan yesterday made public the following statement on the income tax amendment:

"The Democratic platform of 1908 contained an income tax plank. Mr. Bryan endorsed this plank and urged the necessity of a constitutional amendment. President Taft, in his acceptance speech, insisted that an amendment was necessary. For years the Republican leaders have opposed an income tax and denounced the Democrats for advocating it. But behold the change; President Taft sends a message to congress proposing the submission of an income tax amendment, and it passes the senate by an unanimous vote, 77 ayes, nays none. Democratic governors in states having Democratic legislatures ought to call extra sessions at once and secure immediate ratification of the amendment. Income tax clubs ought to be formed immediately in every county—nonpartisan clubs, to pledge members of the various legislatures to vote for ratification. Now is the time to act.

Not Known at Parliament House.

Judge George F. Lawton, of the Middlesex probate court, told me a story the other day of an American minister who was spending his sublimely year travelling abroad. Arriving in London, he made every effort to get an intimate view of the two branches of parliament in session. Of course, no stranger is allowed on the floor of the house of lords, but the minister not knowing this, and with the usual amount of American push, tried to make his way in. There is a rule, however, that servants of the various lords may be admitted to speak to their masters. Seeing the minister walking boldly in, the door-keeper asked:

"What lord do you serve?"

"What lord?" repeated the astonished American, "the Lord Jehovah!"

For a moment the doorkeeper hesitated and then admitted him. Turning to an assistant standing near, he said:

"He must mean one of those poor Scotch lords."—Boston Record.

"Mary, after the week is out I shan't need your services," the boarding-house keeper told her cook; "your cooking doesn't suit me."

"But the boarders seem to like it, m'am."

"Yes. That's why I must get another cook."—Bohemian.

"I see they have the same means of rounding up lambs in Wall street as shepherds have in the field."

"What is that?"

"A crook."—Baltimore American.

Priests Among the Hobos.

More attention is paid than the circumstances deserve to the occasional cases of clergymen who have yielded to the vagrant instinct and become tramps. Such instances are inevitable. The mission leader has to do largely with tramps and city hobos, and some times the vagabond association is contagious, even though the men are at the bottom of the social heap.

"my poor bus," to use the deathbed language of a gifted slum preacher who had himself been submerged and had risen from the mire. Then the mastery ideal has a wandering note in it—struck alike by the old

monument orders and by Methodist itineraries. Trampdom has never been without its unfortunates, nor the pulpit without its reclaimed vagabonds.—New York Mail.

"Oh, what a tangled web we weave," said the apt quotationist. "When first we practice to deceive!" "That's right," answered Senator Sorghum, "deception is mighty dangerous unless one has a great deal of experience."—Washington Star.

WATER TRAFFIC AIDED BY REPORT

SMITH SHOWS WHY RAILROADS
ARE ESTIMATING RIGHTS.

Thousands of Miles, Built at Cost of \$30,000,000, Allowed to Go to Ruin.

CANALS ARE LEFT TO DECAY.

Washington, July 12.—Lack of unity in the inland waterways of the country is given as the principal reason for the loss in traffic which these public carriers have sustained in recent years in the report submitted to the president by Herbert Knox Smith, commissioner of corporations. Mr. Smith points out that the railroads are carrying much of the traffic which rightfully belongs to the canals and rivers of the country.

In connection with the enormous losses in traffic which the waterways have suffered since the great growth of the railroad systems, Mr. Smith says 4,500 miles of canals have been constructed throughout the country. At the present time, however, over one-half of this mileage, constructed at a cost of more than \$80,000,000, has been abandoned the canal traffic (excepting that of some short ship canals) has steadily decreased.

The first need in the rebuilding of the carrying power of the waterways, says the report, is the construction of better terminal facilities. The present unsatisfactory condition of these terminals now is one of the greatest handicaps to the water project.

5,800 Miles of Rivers Neglected.
In referring to the lack of unity in the water systems, the report says that while the United States has 5,800 miles of rivers of six feet depth and over, and more than 2,000 miles of canals, these totals are broken up into a large number of unrelated parts by reason of different depths and different conditions, and that the diverse nature of the floating equipment increases this lack of organization. Many vessels are built for special traffic or local conditions and are thus often not "interchangeable" over different, even though connecting, routes.

"Through freight constitutes a great part of the country's traffic," the report continues. "A reasonable share of such through freight is essential to the success of the waterway system, but the water system, unorganized and divided as it is by diversities of channels and equipment, is greatly at a disadvantage in competition with the rail system for this through traffic."

Europe Sets Good Example.
It is noted that European countries have in many cases distributed the cost of waterway improvement upon localities in some ratio with the special benefits received, while little of that sort has been done in this country.

The report also sets forth the steady advance of steam over sail power, and the tendency toward corporate ownership of steam tonnage, especially the larger vessels. In 1906 the average size of vessels owned by individuals was 113 tons, and by corporations 525 tons. Operating expenses, so far as obtained, averaged about 80 per cent of the gross earnings. The lowest ratio of operating costs was on the bulk cargo vessels of the great lakes, the highest that of the packet lines on the Mississippi system and southern rivers.

The report points out the possibilities of water transportation, the limitations existing thereon, the reasons for their present inefficiency, and the lines along which action toward improvement can properly be taken.

ADMITTED TO NAVAL ACADEMY.
Three Hundred Pass Examination—Two Are Tennesseans.

Baltimore, Md., July 13.—After a number of weeks' suspense, the successful candidates for the admission to the naval academy in the fourth class have been apprised of their good fortune.

Over 300 young men from all parts of the country have just been admitted to the academy, after having passed satisfactory, both mental and physical examinations. The additions to the class will be few and will include only those whose physical examinations have been delayed of the one reason or the other. The following young men from Tennessee and nearby cities have been admitted as midshipmen:

Thos. W. McGuire, of McMinnville; Ralph A. Pless, of Johnson City; and Richard R. Landry, of Louisville.

Turkish Women.
Of Turkish women a writer says: "Though a few of the better class speak a little English, and others, having learned French from their governesses, read the latest French novels, the mass of Turkish women cannot read or write even their own language—for they, like the majority of their men up to the present, have had no system of education. The educated life they lead acts on their intelligence, not being educated themselves, they have not cared to educate their children, and, consequently, it will be some time before the ordinary woman can dispense with the services of the public letter writer, who is often nothing but an impostor."

THE PERFECT WOMAN IS NOT A PAT ONE.

Artists say the ideal proportion of weight in a woman is 25 pounds for every foot of her height. This would make a woman of 5 feet 4 inches weigh 126 pounds 8 ounces.

If you weigh more than this in proportion you are on the danger line and are likely to get too fat in a few years. Check it by taking a teaspoonful after meals and at bedtime of this recipe: 25 ounces Marshmallows, 1/2 ounce Fluid Extract Cassia Aromatic and 3 1/2 ounces Peppermint Water. Get the Marshmallows sealed and mix it with the other ingredients at home. This mixture is harmless, will not cause wrinkles, and has been known to take off seven pounds of fat a week without any help from exercise or dieting. It is inexpensive.

Workes of Wealth.
"Wealth doesn't always bring happiness," said the head-made philosopher. "That's very true," answered Dustin Stax. "It has led to my being arrested for speeding an automobile. It has caused me much weakness in a private yacht and now I suppose I'll be expected to live in terror of my own alibi."—Washington Star.

CHEAP WOOD.

The largest movable bridge yet built in Asia is a double leaf roller life affair, with an opening 200 feet wide, erected by a Chicago company for a railroad in Burma.

What the automobile is to the United States the motor boat is to Canada, especially along the St. Lawrence and in British Columbia.

GRAY HAIR VANISHED.
The old idea of using soap for dandruffing the hair is again coming in vogue. Our grandmothers used to have dark, glossy hair at the age of seventy-five, while our mothers have white hair before they are fifty. Our grandmothers used to make a "sage tea" and apply it to their hair. The tea made their hair soft and glossy and gradually restored the natural color. One objection to using such a preparation was the trouble of making it, especially as it had to be made every two or three days on account of its souring quickly. This objection has been overcome, and by asking almost any first-class druggist for Wyeth's Sage and Sulphur the public can get a superior preparation of sage, with the admixture of sulphur, another valuable remedy for hair and scalp troubles. Daily use of this preparation will not only quickly restore the color of the hair but will also stop the hair from falling out and make it grow. It is sold by all druggists for 50c. and \$1.00 a bottle, or is sent direct by the Wyeth Chemical Company, 74 Cortlandt St., New York City, upon receipt of price. For sale and recommended by W. J. Gilbert.

GENERAL COUNCIL COMMITTEE
RECOMMENDS ORDINANCE.

Market House Ordinance Meets With
Pressure From Diller
Side.

ON STALE EGGS AND BUTTER

The city market house was the cause of a lively discussion at the meeting of the joint ordinance committee last night, and as the result the council will have another try at the market house ordinance. The ordinance was referred to the committee for the purpose of amending the section, prohibiting grocers from buying produce on the market, before 8 o'clock in the morning.

A delegation of citizens was present, protesting against allowing the hucksters space on the market. Will Farley spoke on behalf of the delegation, and he claimed that some of the dealers on market are guilty of confiscating the produce from the producer, and then inflating the prices accordingly. The committee requested the delegation to appear before the council, and lay the matter before it.

The committee recommended an ordinance, prohibiting the sale of stale eggs, and the mixing of butter. In the ordinance it will be prescribed that all cold storage eggs must be labeled and that butter must be protected by butter paper.

Tax Collector.
The office of delinquent tax collector was recommended by the committee.

A request was received from the Well Distillery company asking that it be exempt from taxation. The company stated that it was new and worked between 12 and 15 men.

The ordinance requiring the Paducah Traction company to run the Union station street car to the river was returned to the council.

Speed of Autos.
The committee recommended that an ordinance, governing the speed of automobiles be brought in. The speed will be 15 miles except in the district bounded by Washington, Jefferson, First and Seventh streets. In the business district the machines will be limited to 10 miles, and in making turns and at street intersections they must be slowed down to six miles an hour.

An ordinance for the improvement of Twelfth street between Broadway and Jefferson street was ordered brought in.

The question of drawing an ordinance for the fire protection in schools, theaters, and office buildings was deferred until the next meeting.

The ordinance, regulating the control of city parks, was sent to the stenographer for copies for all of the members of the council.

Present at the meeting last night were: Aldermen Stewart, Barrett, and Councilmen VanMeter, Wilson and Kreutzler.

Fate of the Boys.
There are nearly a million boys each year who terminate their school life and go to work to earn a living. The majority of them are poorly equipped for their life work by what they have learned in school. Their education is along such lines that if they are able to continue it long enough they make fair bank clerks, stenographers, etc., but poor carpenters and plumbers or any other skilled laborer.

The question is, shall the effort to give boys a practical industrial education be left to totally inadequate private endeavor, or shall the public educational system be so interested in fitting the youth of the country for skilled mechanical trades as it now is in equipping them for a life behind the counter or an office chair?

The establishment of manual training courses in connection with some public school systems is evidence that public educators realize that mechanical as well as academic education is a legitimate public effort, but such courses have not yet been placed on a practical basis.—St. Louis Star.

Wayfaring.
The road winds over the hill
Where sits a rose-white star;
O tired heart, be still;
The end is far.

Down in the darkening west
The chill winds fall and veer;
O wild heart, rest, rest!
The end is near.

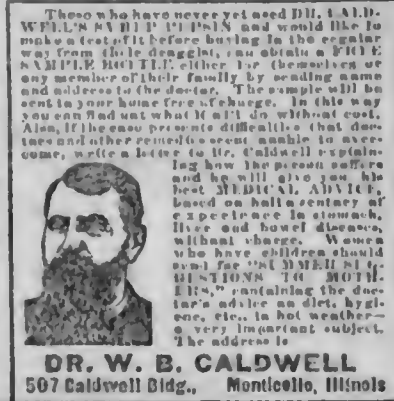

—James Macgill, In Atlantic.

"It is quite possible that in 50 years consumption will be practically unknown in this country," said a doctor from this hospital at a South-west (London) inquest.

FREE For "Summer Complaint"

The common ailment of these hot days is "Summer Complaint," or diarrhea. It is very annoying and weakening and upsets the stomach. The cause of the trouble usually lies in food and water, which in the summer time are often laden with germs, but with many it is due to eating too much fruit or to eating over-ripe fruit. Whatever the cause it is not good to take an astringent remedy that binds up the bowels and stops the flow too suddenly, but take a reliable, natural laxative like **DR. CALDWELL'S SYRUP PEPSIN.**

Its antiseptic properties remove the germs which have been causing the irritation. Children like it especially because of its gentle action and pleasant taste. Salts and purgative waters, tablets or pills, act so violently as to weaken you still more, and do but temporary good. **DR. CALDWELL'S SYRUP PEPSIN** is the best remedy you can obtain for constipation, indigestion, summer complaint or summer colic, biliousness, sick headache, etc. All druggists sell it and it costs only 50 cents for a large bottle. It is for all members of the family and should be your household remedy for these purposes.

STATE OFFICIALS IN HUNTER TRIAL

TESTIFY FOR STATE AGAINST NIGHT RIDERS.

Rebuttal Testimony is Introduced to
Break Down Case Made by the
Defense.

FOURTH WEEK WILL SEE END

Clarksville, Tenn., July 13.—When Judge Tyler opened the Montgomery county criminal court a delay of an hour followed, awaiting the arrival of witnesses over the Tennessee Central railroad.

This is the fourth week of the trial. Already the trial has overrun the time estimated for its hearing. Several witnesses were introduced this morning in the state's rebuttal, others are to follow and several more days may be required to complete the testimony.

Who Will Speak.

There is some speculation as to which of the attorneys will speak and how much time will be required for the argument. Neither side has made a statement as to their plans, but it is very probable that all the lawyers on both sides will be heard.

Officials as Witnesses.

Attorney General Thomas Bowman, of Waverly, and Samuel Crocker, of Ashland City, trustee of Cheatham county, were witnesses in the state's rebuttal.

Mr. Crocker was a character witness for Bob McCormick, and Attorney General Bowman was put on the stand to testify concerning a statement made by Bob McCormick in his presence at the Montgomery county jail on the day Jesse and Will Nicholson were arrested. It is claimed that on this occasion McCormick told about the Nicholson boys asking him why he was not with them on the night Rufe Hunter was shot.

Lee Thompson, state fire marshal, is here also as a witness, but has not been on the stand yet. The Nicholson boys and Bob McCormick were taken before him some months ago for examination concerning fire around Fredonia. He is expected to submit the statements made by the defendants at this examination.

Third Stenographer.

Sam Ford, of Nashville, has taken the place of John Morton, as stenographer for Garner & Garner, attorneys for the defense. The Garners wanted a complete record of the proceedings and had Ford come down. Mr. Morton has been engaged on completing records for some appeal cases of the above firm.

George Sanders.

Testified he lived at Fredonia; was a farmer; knew Will Warren who had worked for him about nine years on his farm. Stated Warren told him of hearing a conversation and quarrel between Lem Adkins and Alf Fielder and heard Adkins tell Marcellus Rinehart to kill Fielder.

Sam Crocker.

Sam Crocker testified he was trustee of Cheatham county; had held the office for 13 years; knew Bob McCormick since he was a child and regarded his reputation as being good and would give him full faith and credit on oath. Stated he had never heard of him beating his wife and burning his child.

James Gossett.

James Gossett testified he was living in District No. 6, of Cheatham county; had known C. T. Fisher for six or seven years, and from what he knew of his general reputation would give him full faith and credit on his oath.

John Bowman.

Attorney General John Bowman stated he was attorney general of this judicial district; that he was at the Montgomery county jail together with his assistant, Mr. Lyle, on day Nicholson boys were arrested and brought here. Mr. Bowman was asked if on that occasion Bob McCormick stated in the presence of the Nicholson boys that they had asked him why he was not with them the night Hunter was killed. The defense interposed an objection.

T. J. Batts.

Witness state he knew Pabe or C. T. Fisher; that he lived in the same neighborhood as he; that he regarded

ed his reputation as good and would give him full faith and credit on oath.

John Etherly.

John Etherly testified he knew C. T. Fisher; had known him about twelve years and regarded his reputation as being good, and would give him full faith and credit on oath. Also knew Henry Lowbora and would give him full faith and credit on oath. Knew Bill Stewart and stated Stewart had a moderately good reputation, but would give him full faith and credit on oath.

E. F. Hassell.

E. F. Hassell testified he was a barber with a shop by the Arlington hotel; did not know Marcellus Rinehart, but some man had once been pointed out to him as Rinehart; Lem Adkins was in his barber shop getting a shave at time, when man who was said to be Rinehart was asked about the result of a suit in which he had been tried for carrying a pistol; that the man had said he didn't mind paying \$50 fine, for he had the pleasure of killing a d—n hill billy.

Jesse Ellis.

Jesse Ellis testified he had a conversation with Marcellus Rinehart at Rye & Hassell's barber shop, in which Rinehart said he was well satisfied with the fine of \$50 for carrying a pistol; that he had the pleasure of killing a d—n hill billy.

Lurton Halliburton.

Lurton Halliburton testified he heard conversation between Marcellus Rinehart, Jesse Ellis and Bryant Whitfield, in which Rinehart said he did not mind paying a fine of \$50 for carrying a pistol; that he had the pleasure of killing a d—n hill billy.

Section Foreman Bowers, of Cor handle, stated he was employed some years ago on the Tennessee Central railroad and Henry Lowbora, also Bob McCormick worked with him; had never said McCormick was a common liar, but would give him full faith and credit on oath. Said Lowbora had worked for him a few days and had been discharged for reason that his force was being reduced.

At the afternoon session the examination of Attorney General Bowman was resumed and he testified that he had never offered Bob McCormick any immunity, pay or reward of any kind for his evidence in Hunter case. He also had instructed his assistant, Mr. Lyle, not to make any such offer.

M. G. Lyle.

Assistant Attorney General Lyle followed Mr. Bowman; stated he had never offered McCormick or any one else immunity from prosecution or reward of any kind. Mr. Lyle was also questioned concerning statements made by Joel Rinehart before the grand jury in August, 1908, and said Rinehart had stated he was around home all forenoon day following Hunter's shooting, but he and Marcellus went to Fredonia in the afternoon and was there three or four hours. Lem Adkins was not at home, but he waited until he returned from Sango, Adkins then told him about seeing Sheriff Staton and hearing of shooting.

Obe Clifton.

Obe Clifton, of District No. 15, Cheatham county, testified he had known Bob McCormick for a number of years and regarded his reputation as being good and would give him full faith and credit on his oath. Also knew Bill Stewart and regarded his reputation as being good and would give him full faith and credit on his oath.

On cross examination he was asked if he had ever heard of Bob McCormick beating his wife and holding his child to the fire until his back was blistered; of him stealing tools and selling them.

Mr. Savage interposed an objection to the question and spoke at some length. Judge Garner replied, claiming a right for the defense to go into specific details on cross-examination.

CANCER KILLS ORATOR-PRIEST

Rev. Father James J. Conway Dies at St. Louis, Aged 55.

St. Louis, July 13.—Rev. Father James J. Conway, S. J., died here of cancer of the stomach, aged 55. He was well known in the west as an orator and philosophical writer and as one of the organizers and directors of the Federation of Catholic societies. He was ordained by Cardinal Gibbons in 1877.

Romance of Married Life.

Really, the romance of life begins only after marriage. It is then that character is developed, that personality is matured, that capabilities are tested. Before marriage (until the individual becomes a confirmed old maid or old bachelor), life is more or less in the nature of a stage play, with comedy and athletics predominating. The most in it is fun and frolic, music and dancing, running and singing, plucking flowers and scattering them. That is excellent good while it lasts. It is afterwards, as a rule, that come the realities that make men and women great; and noble, or the reverse.—Savannah (Ga.) News.

The early shopper catches the bargain.

POPE, OF BICYCLE FAME, DYING

Famous Manufacturer Slowly Sinking at Bay State Home.

Boston, July 13.—Colonel Alexander A. Pope, manufacturer of bicycles and automobiles, is dying at his summer home in Cohasset. Colonel Pope, who is suffering from various physical complications, due to advanced age, has been confined to his bed for many weeks, and his physical condition held out no hope for his improvement. His nervous system was nearly wrecked by the vicissitudes through which his firm passed several years ago after the collapse of the bicycle boom.

While the area conceded to the thirteen original states by the peace treaty of 1783 was 828,000 square miles, their present area is but 326,000 square miles, the other 502,000 square miles forming in whole or in part thirteen other states.

RED SCHOOL HOUSE

TRUMPHS AGAIN AT NATIONAL EDUCATIONAL RALLY.

Prof. James Yodkin Joyner, a Graduate of it is Elected to the Presidency.

Denver, Col., July 13.—The little red school house has triumphed again in the election of James Yodkin Joyner as president of the National Educational association. The little red school house was chosen, at the national convention here several days ago, to go upon the official seal of the great organization over which Prof. Joyner will preside. James Y. Joyner was born on a

farm near Newbern, N. C., in 1862. His father was an invalid and soon left him an orphan. Then followed the youth's hard struggle for an education. Young Joyner was ambitious to become a teacher. After finishing in the village and high schools he taught to provide money for a university education.

He was consecutively superintendent of schools in his home county, Superintendent of the city schools of Goldsboro, professor of English and dean of the state normal and industrial school at Greensboro, and in 1902 was appointed state superintendent of public instruction by Governor Charles H. Aycock, known as the "educational governor."

He has since been twice elected for terms of four years by an almost unanimous popular vote, having over come all partisan politics connected with the office.

The faster you run into debt the more you get behind.

MERGER IS ALL OFF.

Independent Telephone Combination Is Far From Realization.

Parkersburg, W. Va., July 13.—The prospect for a merger of the long distance business of the independent telephone interests at this time is farther from a realization than it has been at any time, as a result of the meeting of telephone men here Saturday. However, another conference will be held here Wednesday. There are still three independent companies which have not yet fallen in with the movement, and they are necessary to its success. A. C. Davis, of this city, secretary of the International Independent Telephone association, is one of the promoters of the project.

MULATTO GIRL SHOT TO DEATH AT CENTRAL CITY

Central City, Ky., July 13.—Lottie Pantreus, a comely mulatto girl was shot to death near the Union station here Saturday night and James Woods, a negro porter, was seriously wounded. According to the story of H. F. Rosson and Estill Brown, two well-known young white men, the shooting was brought about when the two were returning to their homes Saturday evening. Rosson and Brown allege they saw several negro men and women in the railroad yards and they asked them what was their business there. Receiving no reply and being shot at by one of the negroes they returned the fire. There was a general volley of revolver shots and during the firing the negro girl was killed and the negro porter wounded.

The coroner will hold an inquest Monday morning over the body of the dead girl.

HOTEL ARRIVALS

Palmer—C. E. Fisher, St. Louis; Lee Kohn, St. Louis; H. J. Tate, Middleton; E. J. Hauserman, Canton; J. Rauh, Canton; Fred H. Straus, Cincinnati; H. Weeks, Memphis; L. McHugh, Louisville; N. W. Riley, Eddyville.

Lived to Be Over 100.

Holivar, Tenn., July 13.—Annet Lucy Nuckolls, colored, died Saturday afternoon at the advanced age of 108 years. In the dawn of the last century she, with other family servants, was brought to Hardeman county from Maury county by Col. Ezekiel Polk. Lucy had vivid recollection of the "red men" coming in squads to the settlement to trade. Her mental faculties were clear, and she could talk interestingly of the heroes of the battle of New Orleans and of the Mexican and Seminole wars. She was a member of the Baptist church for five score years. On the death of Col. Ezekiel Polk she was bought by Col. William Nuckolls, in whose family she lived until the close of the civil war.

SEEK \$48,000,000 FOR CANAL

Commissioners Ask This Amount for Work of Digging in 1911.

Washington, July 13.—Forty-eight million dollars will be needed by the Isthmian canal commission to carry on the work of digging the Panama canal during the fiscal year 1911, according to estimates which have been received by Secretary of the Treasury MacVeagh, who prepares annually a book of estimates of appropriations to be submitted to congress.

Folsomdale Office Closed.

Mayfield, Ky., July 13.—An order has been made discontinuing a post office in Graves county that was named after the wife of a former president—Mrs. Grover Cleveland. July 31 the office at Folsomdale will be closed.

The office was established about 22 years ago. The people in that section of Graves county petitioned for a postoffice. Like the remainder of the county it was almost entirely Democratic. Grover Cleveland, then president, had just been married to Miss Frances Folsom, a handsome young woman, and the people asked that the postoffice be named Folsomdale, after the president's wife. Their wish was gratified.

FIVE MILLIONS FOR CHEROKEES

NICE BIG MELON CUT BY INDIANS.

Muskogee Lawyer Incidentally Takes Down Fee of \$200,000 for His Siler.

ERROR IN THE BOOKKEEPING.

Washington, July 13. (United Press).—A \$5,000,000 melon that has been ripening for nearly 75 years is at last being sliced by the government for distribution among the Cherokee Indians.

It has been a standing claim of the Indians against Uncle Sam since 1835. In that year the government owed the Cherokees, for land purchased, the sum of \$1,000,000, which lay in the treasury to their credit with interest at 5 per cent.

Then one fine day an error was made in the auditing department of the treasury and it appeared, according to the books, that the Cherokees had nothing to their credit. Their head men took up the matter, hired lawyers and for 65 long years labored to establish their claim. They tried the executive officials and besieged congress but without making an impression worth a cent, to say nothing of the millions they were after. They were told the books showed they had nothing coming and, government records being infallible there was no ground for argument. So it was, year after year, as the Indians made their pilgrimages to Washington.

About ten years ago the aspect of things changed somewhat when Robert L. Owen, an attorney of Muskogee, I. T., was given charge of the claim. He was a member of the Cherokee nation through his mother's side while his father was Robert L. Owen, a Virginian and president of the Tennessee railroad. Attorney Owen was highly educated, he had wit and judgment besides, and he proceeded to make things move. The first thing to do was to get permission from congress to process against the government in the court of claims and prove that the rustling dollars of the ancient Cherokee land really lay in the vaults of the treasury. He got it and afterwards repeated the achievement, two hearings in the court of claims being necessary to prove up the claims of the Indians. In the seven years' campaign he conducted Mr. Owen induced congress to pass three bills and two resolutions necessary in his work. Anybody feeling that it is not much of a job to get that much action out of the greatest legislative body in the world has never undertaken any little old task like moving the Rocky mountains.

Owen's final contest was to move the case into the United States supreme court and he succeeded. In that in 1905 as he had in all that went before. The record he submitted to the court consisted of 2,700 printed pages. He argued the case against the skilled lawyers in the government service and he won a judgment that the original fund, swollen by the accumulated interest to \$5,000,000, belonged to the living Cherokees.

The court awarded him a fee of \$200,000, which approximates the record for attorneys for legal services even in the supreme court.

The decision placed upon government officials the stupendous task of ascertaining who was entitled to the money, of seeing to it that none having rights were overlooked and that imposters did not get a place at the counter. A person having one sixteenth part of Cherokee blood was a legal member of the Cherokee nation and the search through involved family ties threatened to be almost endless. The list of those entitled to a share in the fund has now been completed, however, and contains 35,900 names. It was made up from an army of 85,000 applicants.

The man who won the big fight and was rewarded with the princely fee now represents Oklahoma in the United States senate.

WATER NOTICE.

Patrons of the Water company are reminded that their rents expired June 30, and those who desire to renew them should do so before it is forgotten, as all premises not paid for on or before July 10 will be shut off.

FROGS FALL WITH RAIN

Trains Have Difficulty on Account of Slippery Rails.

Utica, N. Y., July 13.—A message from Gouverneur states that in a heavy wind and rain storm there thousands of small frogs fell, covering sidewalks to such an extent that walking was difficult.

The rails on the Rome, Watertown and Ogdensburg division of the New York Central railroad for half a mile were covered and rendered so slippery that the speed of the trains was materially lessened.

The wise man keeps his temper even when he is getting the worst of it.

RESIGNS

SUPP. HARNED SEVERES HIS CONNECTION WITH CITY PUBLIC SCHOOLS.

Accepts Position of Superintendent of the High Schools of the State.

Clarksville, Tenn., July 13.—At a meeting of the city board of education Supp. P. L. Harned tendered his resignation as head of the schools of

the city to accept a position as superintendent of the high schools of the state, tendered him by the state board of education. The term of the latter office is four years and the salary is \$2,500 per year and expenses. Prof. Harned will continue to reside in Clarksville, but most of his time will be taken up in looking after the high schools over the state.

"Father," said little Rollo, "what is a plutocrat?"
"A plutocrat, my son, is a man who is vastly wealthy, but declines to endow any project in which you are immediately interested."—Washington Star.
